Thread: [Custom Stresser Sources ~ Pre-made Stresser Sources ~ Stresser Rethemes ~ <\[CHEAP\]>](#)

c x y k - September 25, 2015, 3:47 pm

Currently doing work. Will update when available.

Just to my luck.. Over the past week I've been getting numerous messages of people wanting stresser sources and such, but I haven't had time. Now that I have time, I have no customers.

Don't expect it to be cheap, I don't produce cheap work. I'll only provide the best work possible, and therefor I charge at a premium rate.

50% upfront, BTC only. I store it in a wallet until the final amount is paid and you're satisfied.
25% as you see me progress.
25% after a live preview of finished product. I then send source.

Pricing won't be lower than \$400 BTC, don't even bother trying to haggle me down. Welcome to the real world.

Everything is BTC. All contact over HF PM, after you paying first 50% we can converse over Skype or other means of contact.

Pricing\$400 - Completely Custom Source. Price can increase.
\$300 - Custom Premade Source. Five copies available.
\$100 - Re-theme. Price can increase.

<http://anonscan.net> - Not a Stresser, example of web development skills

Another site coming soon

I can offer things such asCustom Plan Builders

Advanced Statistical Data

2FA Integration

Jabba Integration

Scheduled Attack System

API System

And lots more

Feel free to message me on Skype.

I'm working on a source rn, I think you'll be interested. It'll be a bit more pricey than usual sources though, it's a heck of a source.

Vouch for Kondax, seen the things he does with sources and its insane. He spends too much time on these fml

Ozon3 - November 11, 2015, 10:07 am

Hey bud, I added you on Skype in hopes to discuss web development.

c x y k - January 9, 2016, 3:27 pm

I'm now available for hire.

Pricing has been added along with example feature list.
