Thread: [Animezero - Anime Database | Watch Anime Episodes Online For Free](#)

CaligulaEffect - September 26, 2015, 5:18 pm

[About]

This is yet another Anime site that provides HD anime.

The primary focus of this one is mainly to serve as an alternative database, while allowing you to stream anime.

I have a lot of work to do on it (Like restructuring the home page, when the forum finishes, and picking a new color scheme)

If you would like to suggest anything to add to the site itself feel free to ask.

[Staff/Recruiting]

The staff concludes of the following:

Me: Geonode - Web Developer/Administrator/Encoder/Uploader/TLer/TSer/QCer (the last 3 are only when the anime needs it)

Vyze - Anime Staff/Uploader/Encoder

Forrest - Anime Staff/Uploader

Morlek - Forum Moderator

I am looking for some staff to help with the site.

Again any suggestion for the site is greatly appreciated, and thank you for your time.

Nice site!

Works great for tablets too, for me atleast ?

CaligulaEffect - September 26, 2015, 5:51 pm

Thanks, I don't have the necessary tools to test on mobile/tablet so that's good to hear.

The Forums should take a couple of weeks to complete.

Are you streaming directly off your servers? IF so I suggest using seedboxes to stream your media for the max speedrates. It can really make your site something. Just don't let people know you are hosting the media urself.
