Users need to wear the appropriate signature for the duration of the contest, on Oct 11 those who have completed this will be drawn from for the winners atbthat time.

No offense, but your signature looks awful.

It's basically a stock photo with photoshopped text on it.

And why doesn't everyone just use FreeDNS?

FreeDNS honeypots and deletes the DNS entries.

Feel free to use them if you don't want to actually maintain your installs.

LilDurk - September 28, 2015, 4:21 pm

Just put this in my signature, looks good.

Goodluck to everyone.

I don't use them to RAT, only for my friends to easily connect to me, but they haven't deleted any of my entries so far.

Sorry for insinuating they were good for RATting ?

Security cant be defined by a value, your free to your own evaluation, when you determine you require such service, I am always here. ?
