Thread: [Car/automotive section etc.](#)

murjarv - September 27, 2015, 12:33 pm

Hello, It would be cool with a car/automotive, trucks etc section here. I have some manuals that maybe someone could find useful, but i don't know where to make that thread, someone know?

Unfortunately this suggestion had been posted many times in the past and it has been denied. The Lounge is usually used most of the times for automotive topics and do quite well.

This has been suggested and denied numerous times. Please use the search feature the next time.

If we get an Automotive section, we should get a Fashion & Style section.

That would be the right course of action in this scenario.

There simply isn't enough interest in cars for it to have it's own section.
