Hello There,

I would be soon releasing a cheap software that will help you to verify your accounts on social media sites or any other sites instantly. Simply pay -> Get your number -> Enter number to site where you want to get verified -> Receive Text -> Get Verified.

My Product Works Great With:

- > Instagram
- > Whatsapp
- > Facebook
- > Google
- > VK
- > Viber
- > Skype
- > Twitter
- > eBay
- > Amazon
- > Hotmail
- > Mostly any website.

Price:

- > One Text Verification -> \$0.50 - \$1.0/Each
- > Bulk Discount

What are your thoughts about this service? Any suggestions?

Edit: I am also looking for reviewers. You can post below the following and Ill message you when product is about to release:

Make it into a website where people can buy credits. Way easier and less sketchy.

I was already having this idea in mind. Will for sure work into this.

Thanks for your suggestion.
