black ops 3 is going to be a great game but unfortunately i do agree that the scorestreaks are kinda lacking but i feel like theyve listened to us alot about the design of the game and theyd be willing to add things to it.

Yeah if they listen to us the game would be one of the best cods, but I do want more streaks from BO2 back that would make it more fun.

If the game doesn't have good scorestreaks/killstreaks the multiplayer won't be enjoyed as much. Look at AW, the game is shit and there are no good scorestreaks, lol.

Great video man. Also agreed with the points, without good/fun weapons, good kill streaks (worth getting) and good maps, no point to the game.
