Just purchased \$11 worth of services, waiting for delivery, will update upon completion. :)

UPDATE: Services completed in a timely manner, so thank you for that OP. While I did get all of the likes + shares I was promised, all of the accounts were non-english speaking and I gained zero organic reach from their engagement. It even says my post reached only 570 people even though I purchased 1,000 likes. I probably won't be purchasing again, but OP does deliver what is promised.
