I don't need much speed or space

If you really need bulletproof then HF is not right place for you.
Offshore hosting is not equal to bulletproof hosting and many so called "offshore" hosts are hosted in US (like Blazin Hosting).

Hoodie+ - October 3, 2015, 8:43 am

If you want real bulletproof hosting, definitely go for ecatel.

Darksidelfox - October 3, 2015, 9:50 am

Kr?nus - October 3, 2015, 9:56 am

What will you do if the police go knock on your door? Can you guarantee that even when that happens we are safe?
