Thread: [\(H\) \\$1,000 Amazon, Suggest me stuff to buy!](#)

**Griev?us** - October 4, 2015, 2:47 am

Basically have this sitting in my balance and I need some stuff to buy but I'm terrible at buying cool stuff online.

So... Suggest me some cool stuff to buy you lounge-peasants. ?

What I've got already:

IOHawk

3x iPhone's (I don't need a phone is what I'm trying to hint at)

A very nice computer

2 monitors

A 4k TV

A leather couch

A very nice speaker system

What I want:

Desk Gadgets

Anything else that's cool and you can suggest

**Pirni** - October 4, 2015, 2:48 am

Buy me a book

Or...

Food

a drone would be sick

a laptop if you need one lol

Just go on amazon and search "Stuff to buy under \$1000"

**WarOnDrugs** - October 4, 2015, 2:48 am

Can you buy a life from Amazon for \$1k?

My 6 year old brother made this exact joke like 2 days ago. (Besides the \$1k) ?

Also, Grievous get [one of these](#). They're pretty cool.

What about an expensive audiophile grade headset? That's more if you're into gaming than anything- especially soundwhoring.

Already have A40/50's, HyperX Cloud II and like 3 other headsets in my room.

Unless of course, you know better quality brands?

You can't get this on Amazon but with a simple exchange you could adopt a fox. I'm planning on adopting one soon ?

Yeah my audio setup (headset+equip) for gaming costs \$1200 for Xbox and I really like it. If you are interested in going to the next level, PM me. I don't want to publicize the equipment as that just means more people will get it and I prefer having my advantage.

As long as you can hear clearly a better quality headset won't help you at all.
