Thread: [FLAN-Z RELOADED | DAYZ IN MINECRAFT | ZOMBIE SURVIVAL | LOOT | FEATURED MODPACK |](#)

HaX420 - October 4, 2015, 5:16 am

[Video: <https://www.youtube.com/watch?v=f7rxfB3kOuM>]

A world awaits you full of misery, despair, hunger, depression, thirst, betrayal, and bloodshed. When one experiment was one too many, and changed the face of the planet forever. Zombies roams the lands tormenting the remaining survivors. Trust was a beautiful thing, but now trust seems to be a silly word. One can never watch his own back enough, for they will not know whether he will be stricken down by a survivor, or a zombie. Welcome...to Flan-Z Reloaded!

Flan-Z offers a rich, and friendly environment, as well as most importantly a new minecraft experience. Have you ever controlled a helicopter while your buddy is shooting down enemies? Have you ever strategically placed c4, and waited until your victim passed by? Have you ever surrounded yourselves with claymores while you take a vantage point with your sniper? These are only a few of the amazing gameplay features that Flan-z Reloaded offers it's players. Whether you're a minecraft veteran, or a new player to the game, you will find your place here.

A brief list of several features:

- Guns(snipers, shotguns, pistols, etc.)[3d models]
- Explosives(Rpgs, c4, claymore, grenades)[3d models]
- Extra(Parachutes, binoculars, ghillie suits)
- Vehicles(Helicopters, recreational planes, biplanes, Cessnas, golf carts, bicycles etc.)
- Health(Leaches, Medkits)
- Building materials
- Enhanced voting system

This server would not be made possible without mods therefore a modpack is required upon entry however installation was never easier!

Installation Tutorial:

- 1) Open up a browser and type <http://www.technicpack.net> or visit <http://flan-z.net/download.htm>
- 2) Click the download tab, and download the right version of the technic launcher for your os.
- 3) Start up technic launcher, and scroll through the modpacks till you find :Add Modpack = click that)
- 4) Paste the Flan-Z Reloaded modpack url (<http://www.technicpack.net/api/modpack/flan-z-reloaded-test>)
- 5) Click Add Modpack, and click PLAY!

NOTE: **If It asks to select a directory, follow steps 6-9**

- 6)Make a new empty folder on your desktop
- 7)Select that folder as the directory
- 8)Click Add Modpack

9)Click Play

Yes I do have plans for an updated version. The only setback for me is that some of the custom plugins would need to be updated and the entire server configured to 1.8. Reason I still use 1.7.10 is because its stable for modded servers.

If anyone wants to have some fun and check out the server just let me know.

Hey Survivors,

We just made it easier for you folks to loot items in Flan-Z Reloaded. Now you get 2 random items per chest when looting. We also upgraded the Starter kit with an M9 and an Extra Clip! Donators get a shotgun with 12 rounds in the Donator spawn plus the items that are already in the donar kit. Check out donation store for more details.

This is Flan-Z Will you Survive?

Yeah that's awesome to hear man. Glad you never forgot about us. Its the beginning of summer and last summer it was loaded with players. Just hoping we can do the same this summer.

I have done a bunch of updates to the server to make it a bit easier for the new players of Flan-Z, like the starter kits. The starter kit now contains that M9 that the Donars used to get. It comes with one clip of 15/15. Very useful if you come across other survivors who are Hostile and are trying to take your shit. So Id save it for times like that. There are other mele weapons that are obtainable throughout the game that Id use for the zombies. I wouldn't waste my ammo unless it was an emergency.

I have increased the amount of loot per chest to 2 items. Players were complaining they could not find what they needed so what the heck. Now looting is fun again.

I got so much more in store for the server. Make sure your around and ready..
