Thread: [How did LizardSquad jack accounts?](#)

It's a thing that intrigues me. How did LizardSquad jack all these accounts and everything? Wasn't it considered impossible or something?

All those YouTube, Twitter and Skype accounts. Let's say, "Savaged", Savaged jacked several accounts, I don't even know how someone could do that, because it doesn't seem like there is really a possible way to jack someone's account outta nowhere.

They used their full amount of skill and used brute force like everybody else.

Savaged has been jacking for around 2/3 years now.

I've already talked to Savaged, but I don't want to ask him anything about jacking, I don't think that he will tell me anything about it.

They fucked your mother and hacked into her vagina for the accounts since her database was so big.
