insanlyi, BigBoss, BiteYourApple, AppCake, ModMyi, myRepoSpace, and HackYouriPhone. Most of these aren't Forums but, they'll do ;)

Google them for link to the Website.

You can try my forum, i created it early this year. I mainly release iOS jailbreak tweaks, also posting some tuts and hacking tools.

I don't run ads and no subscription, reverse engineering is my hobby, my site is where I contribute, everyone else free to visit and download whatever you need.
