What this bot will do:

Load a combo list email:pass and login to each account and follow,sub,dislike,like, or report a video.

What this bot will not do:

Do all that in 5 mins. Takes about 20 seconds per account. I recommend setting the wait time to even longer. You do not want to burn 1000 accounts commenting on 1 video in 1 second. This bot is made for people who have tons of Gmail accounts who want to start selling follows,subs,dislikes,likes, or reports.

Your customers do not want 1000 likes in 1 min. They want them slowly. So they last.

T.O.S You must give me time for any update needed. (Max 2 Weeks)

No Chargebacks

No Refunds (unless i can not fix the bot)

No Leaks or sharing

No Sales thread bashing

Support is via skype

Or a scam report will be filed

\$29.99 Auto buy it now link coming soon. (After a few vouch copies are given out and reviewed)
DO NOT ASK ME HOW TO GET GMAIL ACCOUNTS!
