[GeneralBB]

A general discussion MyBB powered forum

Hello all,

Firstly I'd like to introduce myself. I'm Byte, an experienced MyBB user who has a wide range of webmaster and programming knowledge. I'm an approachable person who has time for his site and its users meaning I will handle private messages and feedback personally and with care so don't hesitate to contact me.

GeneralBB will form a home for general-discussion, I hope. We will be a forum that is fun to be apart of as well as create new and informative content in a variety of topics - this will all be encouraged through our theme, graphics, contests/giveaways and advertising. I have owned and managed many forums before so I know what works and what doesn't for these kinds of forums meaning I can give you the best experience possible.

I thank those who consider or have already joined. Welcome to GeneralBB!

HackForums award: <http://generalbb.net/showthread.php?tid=28>

Regards,
Byte

GeneralBB (General Bulletin Board) like MyBB.

Correct. ?

?

I thought General BB stands for General Big Bitches?

Hmm that gives me a thought.

[Rock-Paper-Scissors]

Player 2 Player Betting

Hello,

I have been quite busy over the past few days putting together my very own custom plugin for MyBB! And here's the result: <http://generalbb.net/newpoints.php?action=rps>

Rock-paper-scissors is a player-to-player betting game (therefore we don't fuck up the economy with P2C). There are many betting features out there but I've made it slightly different, now you get to decide your own fate! As you know, in rock-paper-scissors it is possible to draw - in the event of a draw both users are refunded.

Here's how it works:Byte sends Clover a bet request for 50 credits (Byte chooses rock)

Clover accepts the bet and chooses paper

Clover wins (profit: 50) and PMs are sent notifying users of win/loss

Minimum bet is set to 10!

Thanks,
?

Nice that you're developing custom plugins so the site can thrive, but this site really needs work. Have contests and site only programs?
