Thread: [\[FREE\] XboxLive 48 Hour Codes!](#)

Specs - October 6, 2015, 10:02 am

Welcome To The Thread!

Today i will show you how to get FREE XBL Codes. You can do this one time per day per account, if you make more accounts, you can get as many as you want. Its not 100% Guaranteed you will get a code each time but the chances are fairly high.

What you need:

- Facebook account (Can use as many as you like)
- Translator ([Here](#))
- Answer page([Here](#))

What to do:

- Head over to: ([Here](#))
- Press "JUEGA" (You can do this 3x per day)
- If you get 3 matching XBL Images, you won. Use the answer page and select the right answer for your code. If your question isn't on the list, use the translator to find the answer. They are always pretty simple anyways.
- If you got the answer right, you will be shown your code, if not, use a different account and try again!

Extra:

I hope i helped you get a free code, this is an old method but recently i clicked on the page on accident and found out it was updated and thought i would share with the people who may not already know! Anyways enjoy?

First person to reply, i will PM a free code?

Well this is awesome. And you are giving this away to anyone? Not only upgraded members? That's very kind of you.

Thanks man, and good luck with everything!
