Can you maybe spend 5 minutes of your time helping me improve my french work for my GSCE's? It's currently at a low B and I need an A*.

Thanks,

French canadian here too. Comment est-ce que je peu t'aider?

I don't recommend you to get help from Canadian - French , because their french is different from what you need. I could help you tomorrow if you want.

No, you people have different expressions.

Sleight Of Hands - *October 6, 2015, 1:57 pm*

Expressions don't make a language. Je suis québécois, est-ce que tu me comprends bien? Je ne crois pas que je suis incompréhensible parce que je ne suis pas français.

Just like english. You don't write like those shitty rednecks from down south talk, but still it's english.

OP, please pay your french-bro with unorganized traffic and cigarettes
