Thread: [\[All users\] Sentry MBA Pack!](#)

Caliban - October 6, 2015, 1:13 pm

Hey there, i made a Sentry MBA pack for everyone interested in this program.

It contains:

- > Sentry MBA 1.4.1
- > Tutorial on how to create a config (PDF)
- > Big combolist (3million user/pass) and a smaller one (user/pass aswell)
- > A big proxy list (over 4k working proxies, but check on a site if they are anonymous!).
- > additional small list of anonymous and fast proxies.
- > Alot of configs

If you want it, send me a PM or post in the thread, and i will try to send it to you ASAP. ?

Only requirements to get it, have at least 1 rep or some posts. (just dont be a blatant leecher)

I feel like this is happening more and more often, people are using the search function but not reading the results properly!
