Thread: [Looking for Skype Bot Crank Repetitive Caller](#)

LeadGenerator - October 7, 2015, 11:49 am

Does anybody know where to get a Skype bot that will crank call a person X amount of times.

afk0 - October 7, 2015, 11:50 am

I coded something that does this in applescript but it will only work on a mac.

LeadGenerator - October 7, 2015, 12:38 pm

I dont have a mac, but I'd love to get a copy.

Is it multi threaded?

Do you use the API?

I can be reached via Skype - LeadGenerator2

Deez Nutz - October 7, 2015, 6:16 pm

Brother, I hope I am in use to you. Try Xenot Skype Bot. It is the most amazing bot you will find.

LeadGenerator - October 8, 2015, 4:44 am

Thanks for posting.

Problem is it flags. Have you tried it yourself?

Left you good feedback :)

Anybody else have anything?

?MrRoot - October 9, 2015, 7:41 am

I can create something like this,

Will it be able to spam the current (group)chat or a specific person?

LeadGenerator - November 7, 2015, 11:25 am

Actually, ended up creating my own. Basically, just terminates call after X seconds. So if you set to 2 seconds, and say 10000 calls, never charges for the calls (if they are external to cellphones, etc) cause for the call to be charged, Skype's billing system takes 2 seconds from the connected call ACK to begin billing.

Can it also call skype users? If so I'd want a copy ;)
