Made a friends chat for the DarkScape community of RS. come join in. Name: "Cult of Dark"

For those not yet aware jagex made a new "RuneScape clone" called DarkScape about 3 weeks ago which has full-world pvp, though lvl 138 guards protect you in towns from pvpers. ALL areas are accessible to everyone in DarkScape, even areas that are mems only in RS.

Official website from jagex for more info is here: <https://darkscape.runescape.com/>

Google will also have the info

Other Info: Official (OPTIONAL) cosmetic items of the friends chat:
