This is my first time creating one of these threads so it might be bad

Rakudai Kishi no Cavalry

[Video: <https://www.youtube.com/watch?v=ppSsthT5z2c>]

SynopsisThe "school sword action" story revolves around Magic Knights, modern magic-users who fight with weapons converted from their souls. Ikki Kurogane goes to a school for these Magic Knights, but he is the "Failed Knight" or "Worst One" who is failing because he has no magical skills. However, one day, he is challenged to a duel by Stella, a foreign princess and the "Number One" student. In this duel, "the loser must be obedient for life."

Personal Thoughts

To me so far this has a Mahouka Koukou no Rettousei feel to it, mainly because the main character is a "Failed Knight," when in reality he is the best at fighting, but it should be interesting.

Chad ThunderCock - October 8, 2015, 12:52 pm

IMO yes it's worth watching, the art is decent, it has comedy, and the fight scenes are pretty good

Like I said, I wish more anime were like Rakudai, straight to the fuking point. What took Rakudai 4 episodes to do (introduce characters, build relationships, show each of the characters powers, and actually pairing MC with someone else) usually takes an anime several seasons to make it happen.

Rakudai so good is amazing, wish it was 24 episodes and not 12 but it's understandable since the manga is quite new still.

Okay, so you are basically saying romance and sexual tensions doesnt have anything to add to the story?

What good relationship lacks romance... Only a virgin giving up on ever having a relationship would completely rule romance as unnecessary.

so please, tell me who the supposed "virgin" is. (not that i give two fucks about virginity, rather have a romantic experience with someone i love over some drunk bitch at a party)

Are you really this stupid? You can have plenty of romance without ecchi. And when you throw sexual tension into a story basically to keep adolescent males happy, what's the point? It's unnecessary and doesn't add anything to the story.

Btw if you could show me where I said I've given up on relationships? Oh wait, I didn't say that.

If you have to rely on sexual themes to portray love between characters they shouldn't be together thus being not entertaining.

Clannad is a solid example, they do not hug or kiss once but the love between them is portrayed very well.

You love ecchi, you need more ecchi. I don't like ecchi and I think it sucks.

I've watched anime with all the focus on ecchi but I chose to watch it anyway, because I wanted to watch ecchi. But an anime that's kind of promising like this one really doesn't need any more, it will make it horrible. (As it already was with the shower scene and that bro-con kiss)

And I honestly can't add anything to what Angel said, so true.

Anyway the latest ep raised my hopes for this anime, I wish they do something creative though. So far it's been pretty generic, but I hope it gets better.

what drives this anime to success is the Main Character , his personality and attitude basicly rapes all of the kiritos and ichikas. Also, one of the few animes that actually gets the main character in a relationship.

No I don't think we will get another season even tho it was amazing the show didn't get enough Hype in Japan

but this THIS! is getting a S2 Gakusen-Toshi-Asterisk because it was the typical safe generic harem.

Best Buy - December 20, 2015, 3:55 am

Guess i gotta give it a try :D

You can't deny that series is great as well

Ang?I - December 21, 2015, 5:57 pm

The ending was okay, not sure why you guys are hyping it up so much. The final fight fucking sucked.

Still prefer Asterisk.

grady - December 21, 2015, 5:58 pm

I preferred this over Asterisk, hate that this isn't getting a second season.

Fuck you and your waifu is shit.

That was amazing and would rather see a season two of this than OPM.

9.5/10

I don't think OPM is the greatest thing ever but at least it had entertaining fight scenes.

What? The show is named One Punch Man.

The fights were literally one punch.

I already know you're going to say "still more entertaining."

Stella Vermillion - December 21, 2015, 9:56 pm

The way they ended this make me think that it won't get a 2nd season

Nah what gave it away was that it was actually good.

Japan hates good shit.

That too, its also quite rare for 12eps to get second seasons (wtf shinmai + owarinoseraph)

This shit was pretty fucking good.

Chad ThunderCock - December 23, 2015, 8:03 pm

What's up with everyone? This was the epitome of a good anime.

An anime where MC chooses a girl, dates her and proposes to her all in 12 episodes while remaining with a coherent non-asspull'ish story and great fight scenes?

Ep 11 hyped me so much, can't remember last time I felt this hyped to watch ep 12, and the final fight wasn't expected however I enjoyed it, felt a lot more "real" than a drawn out fight after we were told how unbelievably strong she was. There's no way he could've won in a decent drawn out fight.

9/10

khmercial - December 23, 2015, 9:16 pm

Honestly, the action is this one was way better, I honestly thought this was just going to be a lame harem anime. The visual + the opening kind of alludes that it might be, but boy was I wrong. It felt

pretty well paced being a 12 episode series, but I like how he slays the waifu so fast, literally harems just make me die when it comes to it being ambiguous, so that they are able to continue it with fillers.

Getsuga - December 23, 2015, 10:24 pm

So basically these guys all have a zanpakuto and the mc is worst student in the shinigami academy because he doesn't have a lot of reiryoku and sucks at kido.

Believe in your waifu, and there'll be a second season.

Also, people weren't kidding when they mentionned this Anime as their favorite Ecchi one. I've seen more Ecchi than that, but it surprised me.

Originaliity - January 12, 2016, 8:14 pm

I think it's a good anime because it introduces the relationship element of the storyline, which other animes rarely are able to pull off.
