Always do the 3 ep rule, well in this case it'll be the one episode rule, but it's pretty good, the guy goes completely insane, if they talk shit about him using a sword, and the only thing that can calm him down is hearing his "sisters voice."

There are a ton of the same style anime airing atm, imo I think there are better ones airing than this one.

Its Kinda Boring....

It has so much story that They could not rap it up in 1 whole episode and Resulted in ruining the 1st episode.
