Thread: [T Mobile windows phone \(will pay 20\\$\)](#)

Dave224183 - October 9, 2015, 10:24 am

I bought a new phone which is a t mobile phone. The problem is I use Verizon. When I put my SIM card into the phone it asks for an unlock code so I called T Mobile and because I don't have a t mobile account they can't give me the unlock code. If anyone can help me with getting the unlock code I'm. More than willing to give you 10-20\$

If you can help please contact me via Skype at sythe.bsgpseller cheers -Dave

Alex is offering his services in the matter and I will send him a PM for him to check out this thread.

Alternatively, you can find a reputable unlock dealer online. Read reviews and reseach.

Make sure you don't start trying to input codes - you only can input codes in for a short duration before you're locked from trying forever.
