Thread: [Any sites to upload pics and vids so pedos buy directly from there without chargeback](#)

I am asking if any sites to upload pics and vids so pedos buy directly from there without chargeback, one guy tried to file dispute on paypal but I won by faking screenshots claiming I send him the file.

I want a site to upload pics and vids so they buy from there.

Payivy, sellurs, payco.re, aiobuy, etc.

Upload your shit on an external site.

Upload a TXT file with the link to the autobuy sites

Thats it.

No if you are smart enough. Chargebacks are always possible on Paypal because, its Paypal, and they can fuck off.??

Sellfy has worked pretty good for me in the past.

Chargebacks are not that likely. I have made 3.5k through ewhoring and I got chargebacks only twice.

create a site, make a donation button linked to the nudes and send buyers to that site. donations can also be chargeback because it's paypal. But it's not easy. Would suggest to use your own paypal, that way you can always verify the ownership of it.
