USER: <https://hackforums.net/member.php?action=profile&uid=1837906>
<https://hackforums.net/showthread.php?tid=4928363> << my sales thread

he cried so much for \$20

when he has a income profit ebook on how much money he makes

<https://hackforums.net/showthread.php?tid=4981809>

makes no sense. I couldn't get on paypal bc of no signal but he just kept escalating even though he shouldn't get the refund NO MATTER WHAT. I gave it to him to stop the drama and to clear my name

He cried about my ebook, claimed i had only one method and it was patched saturated as fuck when I have multiple methods other then that and the one he is talking about I stole shadow daggers with on video. And that same method that he says was saturated had different social engineering strats that work perfectly.

The methods that he put in the thread isn't even mine lmao hack and then give them my stub? what is this shit.

His claims in his thread are wrong, everyone supported him and I was recieving fire. i had no service so due to 2factor auth I couldn't refund so it blew up.

I refunded him under the agreement he removes his post and junks the thread. He doesn't so i neg him then he opens the thread but then someone started READING my responses instead of just the first post he quickly closed the thread.

He got the money and the ebook. It was of pure quality. He complained on how it shows how to use the rat and steal and what to do after and how to bypass 7day and all that but i said on my thread clear as day that is what it includes. He's got his refund but I felt I was tricked and manipulated and everyone took his side. just read the whole thread and tell me who is in the wrong and now everyone thinks my ebook is public and shit

He said my ebook is copy pasted. That makes me even more mad.

I worked hard on my ebook.

I've PM'd staff but no response yet.

This is fucked up.

Just read his thread and look at all the proof and all the evidence of me trying to work it out since i couldnt get on paypal at the time and look at all his lies and calling ME out as the liar and the scammer.

Please help me I don't know what to do guys.

i'm going to PM my customers that were all happy and give them this thread.

edit: as soon as i gave him the refund he wanted so desperately he stopped replying

You might want to add direct link to him.

Okay, i can proove this, I was that guy actually, so first when I read what fumes wrote, we all be like this look legit, because he said everything was saturated andtalking crap about it. But i didn't read iloominati replys, so he pmed me about to read the full thread, so I did, i lookd at the pms and he mentionned it was a beginner book, and in the pms, we could see iloominati was trying to work this out, but the user was only keep asking a refund, because he had the ebook already.

Also, staff dont get into dispute, so you might get Rfed....
Hopefully you don't get Rfed.

Damn, that's very unfortunate bro.. I can vouch that your book was legit and out of the dozens of ebooks I've bought here, yours always stuck out as unique related to spreading. But then again, those ebooks got leaked too :(

You left out the part where I told you I couldn't junk a thread yet?

Rednoob - October 10, 2015, 10:46 am

I told iloominati that this would happen, I even persuaded him to hold off on the refund as he literally did nothing wrong. The other methods in the e-book, fumes did not even try. My boy iloominati would never deliberately screw someone over and he kept his end of the bargain.

Fumes you are nothing more than a two-faced fraud, you get what you want and then you leave. That speaks volumes about you as a person, and a seller on this site.

TLDR: DWC when around Fumes.

Alright I just spent 20 minutes going through all theses posts. From what I have seen Iloominati has kept his side of the deal by refunding you. And you both AGREED that you would junk the thread once he did. However now you are claiming that you do not have to because it is a "shitty ebook" is this kindergarten? You agreed to junk the thread man up and DO IT. And the EBOOK is meant for BEGINNERS and from all the ebooks I have looked at the one Iloominati has is quite quality. It seems to have a lot of effort with detailed pictures etc. That is my opinion on the matter.

PS. If you are going to act like you are five and not stick to a deal you do not deserve 715 rep.

You neg repped tim, because he supported me. Then I neg repped you. Then when jmd posted you negged him.

Man up and commit to it and now you must give me my \$20 you are a scammer. That scam report was invalid.

This is in deal disputes now buddy.

I did not sales trash kid, I posted in your thread a link to this scam report since you now have an open scam report:)

You hurt my business by filing a fake community alert with false information.

Then kids went to my sales thread and posted the link in it.

You are a self-conceived prick.

Not just that, the scam report/community report alert out against me was fake everyone just looked at his fake first post with fake proof

no one read my defended posts and they just went with him

I felt excluded and everyone was out against me so i gave him the refund at my earliest discretion. He did not deserve it and with his attitude towards me it has escalated thus far. He is a fraud and he is a scammer. Just read the pms, look at his childish manor. He is 16 years old but acts 12. He thinks he is some rich kid because he has '12k btc' so he claims when he can't even provide proof on his ebook.

He cries about \$20

now its my turn to cry.

This is now a deal dispute and I demand the junk of that thread and I demand my money back.

Stop sounding like a fucking Mongoloid. If people admit to scamming, they are reputation fucked or banned. You are so inconsiderate over 20\$. If you need money this bad, make a gofundme. I highly doubt people will purchase your e-book now.

I don't even give a shit about Iloom. Your attitude needs to be put into check. Also, go ahead and give me a negative reputation. I don't mind about a -3, as I actually have enough money not to bitch about a petty amount like 20\$. So this is really weird, why is this kid flaming about \$20 when he sell his own shitty eBook.
Hypocrisy? But seriously Illoominati is not that bad, I talk with him over Skype this afternoon for help with spreading, and I learn a lot.
Sure his method might not work for you specifically, but you have to learn to adapt and change parts of it. How he talks is not how you talk, how he think is not how you think.
Also after reading Fumes scam report, didn't he technically leak the eBook by telling what it is about thus violating the TOS?
I don't know, that is all I got from this, that and the 12 pages of arguments. By the way, some of his method is going to be updated in v3, in case people haven't read before buying.

Don't give me any hate, all I did was give my 2 cents on the situation so don't bother me. I swear to god everyone will target me because of my rep level

Look at all these l33t and normal member ub3r dick riders. Its like half of you guys didn't read any of the posts made by Fumes or illoominati.

It's almost the same situation with this member who scammed me. For every sales thread he made I posted and warned everyone about him.

He PMs me for me to take down my posts or I won't receive a refund. I say as soon as he refunds me I'll take it down. Never does it and proceeds to scam tons of people.

<https://hackforums.net/member.php?action=profile&uid=156256>

Now what I don't understand how the fuck is this manipulation? Your posts basically says how "legit" your ebook was. Not how he "manipulated" you and his posts dosen't manipulate anything. It makes no sense at all.

This thread is actually invalid imo. It's so strait forward what Fumes wanted, refund=closed thread, but you actually decided to make a fake scam report against him after you refund him and that's why it looks like he won't take it down.

If I were in his position I would do the exact same thing because you just started a war with him.

He pretty much meant manipulate people who only reads the dam thread and dont look at replys(I did so). So he after all these negative replys against him, he wantd to stay clean, even if he wasnt at fault. Also, he asked the thread to be junked, and he only closed, and i think they talk about it in Pms, but no relys from fumes, so he negged him and asked him to trash him , and to pm him to resolve it, instead of explaining he couldnt trash it yet, he negged him back, then the war started.

He PMs me for me to take down my posts or I won't receive a refund. I say as soon as he refunds me I'll take it down. Never does it and proceeds to scam tons of people.

Now what I don't understand how the fuck is this manipulation? Your posts basically says how "legit" your ebook was. Not how he "manipulated" you and his posts dosen't manipulate anything. It makes no sense at all.

This thread is actually invalid imo. It's so strait forward what Fumes wanted, refund=closed thread, but you actually decided to make a fake scam report against him after you refund him and that's why it looks like he won't take it down.

If I were in his position I would do the exact same thing because you just started a war with him.

He wants me to junk my scam report if I want this junked

I told him I don't care if this stays up as it is false and my scam report is valid and his uid remains in the scammer database.

Continues to call my ebook shit and complain about \$20 and also continues to LIE about my method in the OP. Claiming that there is only one method and also claiming that it is patched.

There are multiple methods. He also claims that there are only 7 pages.

He justifies that by showing the table of contents that have not been updated since v2.

V2 includes multiple methods that are indeed not saturated. Fumes is just a manipulative liar by deceiving member(s) to make my product look bad by giving them false rumors. I've went over skype with multiple members that took his word and shared screen so they can confirm it. He thinks that the pictures and the words are huge as fuck but if you change the text font to size 12 and the font to verdana its 19 pages LOL

Some of the pictures are way more descriptive then the words because they display how to do certain things.

On my ebook page he had violated my TOS multiple times but I still agreed to work with him and help.

REFER TO THIS FOR THE EBOOK VERDANA SIZE 12: <https://i.imgur.com/EFtP8HH.png>

He claims the scam report is invalid but it infact is not because the deal was for him to junk.

He's not asking me to junk my scam report and in return he will junk his. I refuse to do that due to past experiences with him that led up to this as I explained earlier.

Regardless of the negative reputation that triggered him to act in such a way despite the fact I gave him a refund which he didn't deserve even when people consulted me to hold off. I did it because no one was reading the posts but just the first thread post of the OP. Thus me against everyone and

everyone trashing my thread even when i try to provide arguments he still complained 'REFUND ME' and everyone else is like REFUND HIM.

So I did and then everyone realized that he did indeed not deserve it.

refer to this

<https://i.imgur.com/1rQsLCx.png> for the pm's about junking.

People who supported me on page 5 were negged by fumes

if you think they were dickriding me think again as Fumes has negged all of them before they negged fumes.

Fumes was basically coercing members to not support me by negging. Which is childish.

Everytime he hit me with a disrespectful insult (go click the link above for pms or just simply read this threads OP)

I tried to resolve it. Everytime he said something rude I remained passive and tried to work with him. The moment I become passive aggressive he gets offended immediately and turns this around trying to support his claim of a refund.

He got a refund but he's still crying.

Like people said, op you have your own ebook and you basically fucked yourself.

Either give me the \$20 back and keep this thread up or junk it if you want to solve your scam report.

Everytime I asked him if he had tried the other methods he replied with 'JUST REFUND ME' in this thread, read the posts from the beginning. He ignored it because in the OP he claimed there was and I quote Quote:literally only one method

He bought something he couldn't afford it seems (maybe it might not be the case and he just regretted impulse buying the ebook) But it is a quality ebook and I provide support for my customers. I help them, I have regular conversations and solve their problems/answer their questions.

Talking to op is like talking to a wall, it's a one sided argument.

His thread/op just read it doesn't it seem a little bit like a fairytale to you guys?

Let's dissect it

Quote:he is giving me the usual "No, I can't afford to refund you get scammed fagget" bullshit. Read pm's if you think that is the case.

Quote:- Iloominati states in his thread (screen shot here) that the "Ebook consists of twenty three pages and 2015 words"; when in all actuality its artificially inflated by using size twenty font and pictures which take up 3/4ths of the page. When the font and pictures are reduced, the Ebook is a measly seven pages.

Honestly it's as if mmwayy is guiding him through this scam report but anyways..

Size 20 font he claims and he says the pictures take up 3/4ths of the page.

That is not true as I proved it wrong a little higher up in this post.

But what happened to 'Quality over quantity'

Oh wait nevermind he claims it is shit and it is saturated and there is only one method.

Quote:Section Three: How to setup a RAT. This is literally fifth teen pages long and is common sense. I don't think he needs to include this in the Ebook and if he must; it shouldn't be half of the

Ebook.

'fifth teen' pages long and is common sense. This is a beginners ebook. And didn't you tell me there is only 7 pages

I can't be bothered looking about when you posted my table of contents you used that to backup your claim of only '7 pages' in the ebook as there were only 7 outdated lists in the table of contents

sections $\neq$ pages

You added a superficial analogy to sections and pages

there is no connection so why are you telling people in the thread that there is one page a section? Did you think I would not wait to collect my thoughts and call you out?

[img]Public TeamSpeak method. This method is not only patched but public as fuck and not monetizing in the slightest.[/img]

For the one "public" method as you claim I have been steam stealing for little over two years now and have just started selling this method

You can ask the member you have on skype named 'OverSight' if you do not believe me.

I have proof it's not patched in the way i do it, I have proof from last week I stole shadow daggers.

<https://i.imgur.com/ay1tA3C.jpg>

Here is a trade history from november of 2014 regardless

<https://i.imgur.com/HRRdlK5.png>

And if you think i'm fake or i haven't been in the game. Rednoob and Jmd7231 used to help me trade. They both have the ebook and they've personally gave honest reviews on it as they've seen what it's capable of. Jmd7231 is using the ebook and has been successful.

I've helped so many customers and they've vouched and your the only person that has had a problem.

And then when customers come to post their thoughts you pass them off as fake vouches and it being a shit method.

You did violate my tos multiple times even by just leaking the table of contents

You claim that there are method"(s)"

but in the op you say "literally only one method" Make up your mind

This is not a method and you are a fraud for claiming this as a method in my ebook to deceive members unknown to the situation that are too lazy to go through the pages.

Quote:> I buy his Ebook and am hyped to try it out.

> I see that its a public method and I am outraged.

> I contact him privately and ask for a refund.

> He insults me and still refuses the refund.

Now be honest and read the pm's did I legitimately insult you initially and did I refuse to refund you?

@ VIEWERS OF THIS THREAD, direct yourself to the pms that he did not include in the op but i have in this post

Quote: Join me on this journey of exposing this broke nigga boy for who he really is. He's literally scamming kids out of \$20.00.

Quite professional. You bought RIGHTS to someones personal income method mate. YOU

BOUGHT OWNERSHIP of an income method to have a source of income lol. Even in the thread title it said 'VIDEO PROOF' and then later on would you look at that, someone calls you out for false advertising and you get wrecked.

I mean has anyone genuinely bought your method and REPORT back about how successful they were? Or did you PM an admin to remove their post as they were regular members prone to buying it?

Just grow up and know that you are at fault here.

Oh and btw, how is this for 7 PAGES.
