Good job, once you got a niche to make money and you get good at it. That's when spending the money is harder than making it. Few months back I will be commenting on all these 10p btc giveaway threads but now I just donate casually like 30 dollars and making like a 4 figure every month effortlessly

SUSPENDED. - October 10, 2015, 3:03 pm

Nice man keep it up. I've only made 60\$ in 2 days. I'll might start ewhoring again soon after seeing all these earnings.
