I was wondering if you could hold on a 25\$ or 35\$ package left for me (without he discount) please add my Skype if yes. Skype: Kasper.gza

Also I have a few questions

1) will I have to make any further investments in order to complete the methods?
Or are the methods completely free?

Is this any scamming or illegal? If, I'm sorry but I won't buy it.

I also want to know if it's any coding related?

Or is it no data-skills required, not like html, Css r any website or software related stuff?

Would be great if not, cause I have no clues.

Thank you Mons,

I can't PM you i don't have 25 posts yet.

The reason i ask so much about that, is because i haven't much money, and every euro is important for me and my family.

I live in Greece and here guys, the crisis is much worse for what News channels tell about.

I lost my job,about 45% of population haven't jobs, and i live with 300 euros per month,that i take for playing football on a small team.

So, i don't want to spend 20 euros and don't make money.

I really want to trust you , if you can make my income with your information, i would appreciate you for ever.

I really want some help here.

Thank you again and sorry for the long post.

Mons,

Thank you again for your answer.

Probably, tomorrow i will be paid from the team, so i will buy your method and your help.

Also, i have a question more.

Here in Greece, government brings capital controls in our banks, so we can withdraw 420 euros only per week.

In your method, if i will make money, can i'll be paid via payoneer?

Hi, I want to try this from all the people vouching but I would like you to answer some questions that I couldn't find here:

- 1) I don't have a lot of free time, how much time per day will this require?
- 2) I see people stating very different earnings from 50\$ a day to a lot more, on what does this depend? luck?
- 3) I'm from Europe, will it require subscription to websites that only accept certain countries?
- 4) How much investment is needed to make profit, and when will I start to profit?
- 5) I have 0 experience in internet money dealings, does it require knowledge?

Thanks mate

Didn't think much of these methods at all tbh. Not worth it. The second method is selling something that you get for free anyway.

I am very curious about this, can you give me an outline? I want to know why I should invest in this package you are offering.. thanks for your wisdom..

Forgiven_nL - January 19, 2016, 2:53 pm

This ebook is a joke.

I'm sure this would probably go towards all ebooks, don't waste your money. I promise all they tell you is some common sense and tell you to go from there. They don't give step by step instructions like you'd expect when purchasing an ebook.

I made the mistake of thinking maybe if I pay a little more for an ebook it might finally be worth it, 100% wrong.

Don't buy this ebook

Shark86 - January 20, 2016, 1:14 pm
