All tools in CasperLauncher equipped by Tutorial and Guide How to use it

So you can easily use any toolkit therein.

CasperLauncher is distributed in the hope that it will be useful.

GET CASPERLAUNCHER V.30 on [Casperspy.org](https://casperspy.org)

Since a web server that I used to be synchronized CasperLauncher suspended ([casperspy.com](https://casperspy.com)).

This software become dysfunctional BUT THIS TIME i've plan to upgrade the latest version with the new dedicated VPS. I'm still working to put finishing touches onto this software and it will available on all OS such as Linux (all distro), Apple MAC and Windows cuz it based on Java. When it ready to launch you'll be the first to have it

if you have any more info about this software you can post here
