Thread: [Xylos Theme \[9 Controls\] \[GDI+\]](#)

Naywyn - October 11, 2015, 9:27 am

Hey there, I started to work on this theme because the old one (Aether) was buggy and I'm sorry for that.

Here is a preview of the theme:

VB.NET: <http://pastebin.com/nrLizBKm>

C#: <http://pastebin.com/gzJz855B> (Thanks to [Devil Dog](#))

Vector.A+ - October 11, 2015, 9:28 am

once again , awesome theme

NULLEN - October 11, 2015, 9:28 am

Looks clean & modern, Looks great, keep it up.

Zettabit - October 11, 2015, 9:46 am

This looks great. I might just use this in one of my upcoming projects.

Keep up the great work. :)

.cYRil. - October 11, 2015, 9:59 am

Using RoundedRectangle for Textbox and Combobox box is really awesome,I don't see groupbox control, it would be good if you add it

Devil Dog - October 11, 2015, 10:23 am

Here is the c# version of yet another amazing theme by AeroRev9

<http://pastebin.com/gzJz855B>

Naywyn - October 11, 2015, 10:38 am

(Oct 11, 2015 10:23 AM)Devil Dog Wrote: [\[CITE\]](#) Here is the c# version of yet another amazing theme by AeroRev9

Thanks for the conversion, added it to the main post!

SIM-1847363 - October 11, 2015, 10:44 am

nice theme man, you came a long way, love you ;3 and your work.

Vrekt - October 11, 2015, 10:56 am

Nice theme, lookin good :)

Witz - October 11, 2015, 11:05 am

Cool theme OP, keep it up !

nazist - October 11, 2015, 10:58 pm

pretty cool theme, thx for sharing this man

SaketSaket - October 12, 2015, 3:14 am

Cool looking theme buddy ;)

Schematic - October 12, 2015, 8:48 am

Hi,

Whenever Xylosnotice is added to my project, The project cannot debug.

An unhandled exception of type 'System.InvalidOperationException' occurred.

Code Exception thrown: 'System.ArgumentException' in System.Drawing.dll
The program '[5696] Schematic Savings.vshost.exe' has exited with code -1 (0xffffffff).

Rockofello - October 12, 2015, 1:07 pm

Schematic, Mine also breaks the System.Drawing DLL. Have you found any fix for this ? I cannot add listbox, listview, or datagrib toolbox items plus others. That TabControl is bugged and i'd really like a fix.

Analytical - October 12, 2015, 1:09 pm

Looks good, keep up the good work.

Rockofello - October 12, 2015, 1:33 pm

Everyone using the Aether Theme can fix the bugs and have it look exactly the same just by switching the Xylos Tab Control and the Aether TabControl Finally got it working thanks for this theme!!!! Saved me

Lone - October 12, 2015, 1:51 pm

(Oct 12, 2015 08:48 AM)Schematic Wrote: [\[CITE\]](#) Hi,

What version of VS are you using? 2015 is working just fine for me.

REKTED BY LOLI GODS - October 12, 2015, 1:51 pm

This looks very nice keep up the good work man!

?Eatos - October 12, 2015, 3:22 pm

(Oct 12, 2015 01:07 PM)Rockofello Wrote: [\[CITE\]](#) Schematic, Mine also breaks the System.Drawing DLL. Have you found any fix for this ? I cannot add listbox, listview, or datagrib toolbox items plus others. That TabControl is bugged and i'd really like a fix.

Same here. And same with Aether theme too. It's a pity I can't use such great themes because of this.

Rockofello - October 12, 2015, 3:55 pm

(Oct 12, 2015 03:22 PM)?Eatos Wrote: [\[CITE\]](#) Same here. And same with Aether theme too. It's a pity I can't use such great themes because of this.

Actually I found a fix for that theme all you have to do is take Xylos the TabControl and replace it in Aether. Exactly the same which I have no idea why he did not just fix that theme. Hope that helps Eatos took me few days before I got it fixed with this new theme.

?EatOS - October 12, 2015, 4:27 pm

(Oct 12, 2015 03:55 PM)Rockofello Wrote: [\[CITE\]](#) Actually I found a fix for that theme all you have to do is take Xylos the TabControl and replace it in Aether. You add a new class, and then build.

ZxPwds - October 12, 2015, 8:31 pm

(Oct 12, 2015 08:22 PM)Lone Wrote: [\[CITE\]](#) You add a new class, and then build.
Ah darn it's Class,,, Thanks man. Much appreciated. _____
EDITED:
actually no i still dont see the controls I can use?

maruata - October 13, 2015, 4:27 am

Beautiful and Sexy theme...bro...thanks...

ZxPwds - October 13, 2015, 2:38 pm

(Oct 11, 2015 09:27 AM)AeroRev9 Wrote: [\[CITE\]](#) Hey there, I started to work on this theme because the old one (Aether) was buggy and I'm sorry for that.

Hey nice work man I love it. I got a question. How did you make that Dashboard area in your TabControl. I don't understand how you did that. I've been fooling around with it for 30 minutes trying to figure it out lmao.

Rockofello - October 13, 2015, 4:42 pm

How would I add a bottom border to the tab controls

```
Using P1 As New Pen(ColorFromHex("#3B3D49")), P2 As New Pen(ColorFromHex("#2F323C"))
    G.DrawLine(P1, New Point(Rect.X - 4, Rect.Y + 1), New Point(Rect.Width + 4, Rect.Y
+ 1))
    G.DrawLine(P2, New Point(Rect.X - 4, Rect.Y + 2), New Point(Rect.Width + 4, Rect.Y
+ 2))
End Using
```

developmentDesigns - October 13, 2015, 5:49 pm

That is sexy time to start a new project :)

ZxPwds - October 13, 2015, 7:39 pm

(Oct 13, 2015 04:42 PM)Rockofello Wrote: [\[CITE\]](#) How would I add a bottom border to the tab controls

    G.DrawLine(P2, New Point(Rect.X - 4, Rect.Y + 2), New Point(Rect.Width + 4, Rect.Y
+ 2))
End Using
```

Where would I add this. Sorry for the noob question.
and another thing. how did he add the images next the the tabcontrol text

Rockofello - October 13, 2015, 9:40 pm

ZxPwds: Add before the

```
Code Next
End Sub
Inside The OnPaint() function of the XylosTabControl
Code Protected Overrides Sub OnPaint(e As PaintEventArgs)
'All
'This
'Code
    For I As Integer = 0 To TabPages.Count - 1
'All
'This
'Code
End IF
*****Code goes here*****
Next
End Sub Skype em if you have questions steven.hammons2020
```

WhyWork - October 14, 2015, 11:11 am

Ohhhh okay thanks man ?

DionTerry - October 15, 2015, 8:48 pm

Very clean and slim looking, we should work together on an ultimate theme, ive been working on a fully customizable vb class of controls huge list of controls about to release the first one just made this control today, its okay just a few hours of time into it.

Streetlight. - October 28, 2015, 2:25 am

Omg, this theme sexy as fuck, exactly what I need.

Illusionisten - October 29, 2015, 8:49 am

I'd love to have a trackbar as well, otherwise, good lookin

Vector.A+ - October 29, 2015, 1:35 pm

OMG thanks for the C# one , I felt I should mention it since it is kind of rare finding C# themes.

debug - October 29, 2015, 7:47 pm

Very nice theme. I'm constantly impressed by your work through each release.

Visual Freedom - October 31, 2015, 12:14 am

Bookmarked for next software project which needs a new theme. Nice work!

Nyan_Meow - October 31, 2015, 4:16 pm

Awesome theme keep up the good work

Kiwi - November 1, 2015, 12:54 pm

Looks super clean - Good job man !

deluxe - November 3, 2015, 4:40 am

Hey man i get this issue when i try to debug the code: Error 1 Code 'ComponentModel' is ambiguous, imported from the namespaces or types 'System, System.Windows.Forms'. c:\users\dani\documents\visual studio 2013\Projects\-----\-----\Class1.vb 241 2 Test2

Naywyn - November 3, 2015, 7:43 am

(Nov 3, 2015 05:40 AM)DELUXE Wrote: [\[CITE\]](#) Hey man i get this issue when i try to debug the code: Error 1 Code 'ComponentModel' is ambiguous, imported from the namespaces or types 'System, System.Windows.Forms'. c:\users\dani\documents\visual studio

2013\Projects\-----\-----\Class1.vb 241 2 Test2

Try deleting everything in the class before pasting the theme code.

BladeZ201 - November 3, 2015, 9:16 pm

Beautiful theme, thank you for this theme.

FDSJKLJFL - November 7, 2015, 1:35 pm

(Oct 29, 2015 01:35 PM)max_steel Wrote: [\[CITE\]](#) OMG thanks for the C# one , I felt I should mention it since it is kind of rare finding C# themes.

You can just compile the vb.net to a dll and use in in your c# project

KFC Watermelon - November 8, 2015, 1:55 am

This is a fantastic design. Great work!

VRUMM - November 8, 2015, 1:59 am

This theme looks so nice. Good job.

AspectModding - November 9, 2015, 2:21 am

How do you get the form design bud, I got all the components but can't get the actual form design.

Naywyn - November 9, 2015, 4:51 am

(Nov 9, 2015 03:21 AM)AspectModding Wrote: [\[CITE\]](#) How do you get the form design bud, I got all the components but can't get the actual form design.

Like Odus said, there is no form container, it's the default one and I'm using Windows 10:

Spoiler [\(Click to View\)](#)

SIM-2263652 - November 9, 2015, 5:44 am

As a vb.net programmer I only need to say this; Fucking beautiful. Would you sir mind if I used this for my upcoming developer's web browser? Of course I will put your name in the credits.

AspectModding - November 9, 2015, 12:22 pm

(Nov 9, 2015 03:54 AM)Odus Wrote: [\[CITE\]](#) No form container exists, that's just the tab control docked to fill. The border looks like the one from W10.Oh right that makes bit more sense haha, thanks for the info :)

knrd - November 10, 2015, 8:50 am

Thanks for the theme. Looks pretty. I like the material style. ^^

~Konrad

farooch - February 15, 2016, 1:33 am

good job it looks really good !

Diamondo - February 15, 2016, 2:51 am

Yo Naywyn, stop making these cool themes already. ?

xPoutine - February 15, 2016, 6:41 am

License?

I'd really love to revamp my old programs with this sex theme.

Tedd - February 16, 2016, 11:04 pm

Definitely using this for personal projects. Sexy as fuck.

IGENERATOR - February 16, 2016, 11:22 pm

I am actually using this for my own Personal CRM project. Thanks man.

OmegaCode - February 18, 2016, 8:28 pm

I can't get the C# version to work at all :3

says "Information" is not present in the current context

FiftyTwo - February 19, 2016, 6:18 am

Posting here to use this soon.

Thanks OP!

Jacckkk0 - February 20, 2016, 11:23 am

Hi this theme looks just awesome, but i get this error in VB: Error 2 'ComponentModel' is ambiguous, imported from the namespaces or types 'System, System.Windows.Forms'. C:\Users\hesus2\cleanurgarden\AppData\Local\Temporary Projects\testestestest\themememe.vb

.Cherry - March 27, 2016, 4:25 pm

Bumping this I love this theme :D

kevs - March 27, 2016, 5:05 pm

I'm gonna use this thanks! :)

Iterator - March 28, 2016, 9:37 am

Looks very sexy thanks I love this theme

jhonth0r - March 29, 2016, 11:43 pm

why i can't use event keypress on textbox?

.Monarch. - March 30, 2016, 12:11 am

Looks professional, Tab control looks awesome thanks for sharing

DannyTM - March 30, 2016, 7:23 am

real nice theme :) thanks for C# release too~!

chlec - March 30, 2016, 9:41 am

Thank you mate, I'll may use it for my tool.

rezzex - March 30, 2016, 11:51 am

How do i implement that Theme in my Project?

Diamondo - March 30, 2016, 12:46 pm

1. Create a new class.
2. Remove the lines which the class gave you and paste the entire theme there.
3. Compile or rebuild.
4. You'll have the controls in the Toolbox.

Mendax47 - June 5, 2016, 6:39 am

Can I Use TabControl at Horizontal....?

TestTestOMG - June 15, 2016, 8:18 am

Cant get the freaking image next to the tab text.

Xoslize - June 18, 2016, 12:05 am

(Jun 15, 2016 08:18 AM)TestTestOMG Wrote: [\[CITE\]](#) Cant get the freaking image next to the tab text.

Create a new ImageList, add your images into it, set your preferred quality and the size to 16x16.

Then, choose the ImageKey property for each TabPage.

Sniper Pal - June 28, 2016, 1:15 pm

Looks clean & modern, Looks great, keep it up.

Trite - June 28, 2016, 3:03 pm

Wow looks very nice! Clean design, please keep up the good work!

lhabZ - June 29, 2016, 2:32 am

Amazing Theme bro !
thanks for sharing

L?YLE - July 14, 2016, 5:59 am

How do I add an icon to the tab?

Naywyn - July 14, 2016, 6:40 am

(Jul 14, 2016 05:59 AM)L?YLE Wrote: [\[CITE\]](#) How do I add an icon to the tab?
Add an ImageList to your project with icons in it, link it to the Tabcontrol.
Modify tabpages ImageIndex property.

emem - July 14, 2016, 5:13 pm

Looks slick and nice.
Can i ask from where do you get the icons ?

SIM-2263652 - July 15, 2016, 12:46 pm

Goodwork. Xylos is a nice choice for almost every Project. Little bit old, but still nice.

TechBitGaming - July 29, 2016, 7:51 pm

Can someone help adding this theme

Travis Bickle - July 29, 2016, 7:56 pm

Easily the cleanest theme, dope af, gj.

Ghzt- - July 30, 2016, 1:11 am

Damn this theme is looking fresh ?

TitaniumCrack - July 30, 2016, 8:17 am

once again , awesome theme

SIM-2914476 - August 1, 2016, 3:26 pm

Thanks for this! Primarily using it as a mini-theme base for only the TabControl xD

????Kosdff - August 2, 2016, 7:07 pm

Ok, well fucking done. This theme looks so good it gives me a boner ?
This may seem like a stupid question but how to I group the Tab Control like what he did.

-Dashboard-
Sign Up
Settings

Geatzo - August 3, 2016, 11:30 am

Nice theme man, you came a long way, love your work.

breaker1911 - August 21, 2016, 1:30 am

I can't make "child Tabpage" , can anyone show me how ?

Eth.an - August 21, 2016, 6:24 am

wow that looks good, u able to help me with login form for vb?

#Kat - August 22, 2016, 10:12 am

I'll just leave this here..

Antbeast - September 12, 2016, 5:32 am

Cool theme, good work ;) - I will use it for something for sure.

Phoenix_101VB.NET_DUDE - September 12, 2016, 4:19 pm

Lol finally a C# theme XD

nice good job

Zenco - September 12, 2016, 4:45 pm

dude, this looks amazing good job :)

Grazty - September 13, 2016, 5:33 am

I might sound like i complete retard but how do i add the tittle in tabcontrol like Dashboard

dowit - September 13, 2016, 1:08 pm

this theme is cool, look a bit like an better apple skin

~Illuminati~ - September 14, 2016, 1:31 pm

Very nice! Compliments! :O

JavaDriveBy - September 14, 2016, 1:38 pm

Loook great! Thanks for share this OP theme.

Ping Pong Reborn - September 17, 2016, 4:48 pm

Wish I could use this :(Pastebin is down for VB.net

SABB - September 19, 2016, 4:08 pm

I've found out how to add images but how have you created the part where it says DASHBOARD, I don't want it as a tab, I want it as a category like yours.

CoderEX - September 19, 2016, 5:18 pm

(Sep 19, 2016 04:08 PM)SABB Wrote: [\[CITE\]](#) I've found out how to add images but how have you created the part where it says DASHBOARD, I don't want it as a tab, I want it as a category like yours.

Set a tag for it.

Tinkabell - October 5, 2016, 1:30 pm

there is an error with : using Microsoft.VisualBasic.CompilerServices;

My Computer - October 5, 2016, 7:10 pm

(Oct 5, 2016 01:30 PM)Tinkabell Wrote: [\[CITE\]](#) there is an error with : using Microsoft.VisualBasic.CompilerServices;

To solve that go to 'Project' menu at the top of the menu bar -> click 'Add reference...' -> click 'Assemblies' -> click 'Search Assemblies (Ctrl+E)' and type "Microsoft.VisualBasic" into the search box -> Click the checkmark next to the "Microsoft.VisualBasic" reference -> Press the 'OK' button.

That error should go away now. ?

bit-trader - October 8, 2016, 4:05 am

great theme..will use in next project.

DopplerAF - October 8, 2016, 4:37 am

Tom2565 - December 26, 2017, 3:13 pm

How do you made that seperators and little DASHBOARD thing in the tabcontrol, tried the way that a user posted here under your post but didnt work.

Please help us god :D

Hopsin - December 27, 2017, 7:55 am

Its old but still great. Thanks for sharing, mate.

Dyrr - January 11, 2018, 9:53 pm

Posting for reference!

Theme looks amazing!

Tom2565 - January 25, 2018, 10:26 am

Please guys.. How can i add this things?

DeQuex - March 3, 2018, 8:45 am

thanks for sharing this theme

B0RU70 - March 25, 2018, 7:01 am

Looks clean & modern, Looks great, keep it up. Like ^^

Elyse - March 27, 2018, 2:41 am

I'am using the latest visual studio and the C3 version of this theme has a lot of errors GG

(Oct 11, 2015 09:27 AM)Naywyn Wrote: [CITE](#) Hey there, I started to work on this theme because

the old one (Aether) was buggy and I'm sorry for that.

Here is a preview of the theme:

hey bro can you help me? i am getting shit ton of errors with this theme discord CyberDevil#5430

OffCode - April 10, 2018, 5:51 am

Very nice theme, Looks modern and clean my favorite theme now :)

'<ComponentModel.DefaultEvent("TextChanged")>

SIM-2564555 - May 2, 2018, 1:34 am

what kind of icons suitable with this theme and what is the best icon size ????

aranzull1n0 - May 3, 2018, 1:02 am

Really nice theme , it would be better with some other UI Functions.

Can I have a newer theme? I'm looking for a theme like DataProtector V4 or AdderallProtector for a crypter I'm making?

I wan't it in C# or VB or a Dll

Le-coyote - August 25, 2018, 1:53 pm

nice work man! Thanks for sharing !

InterGalactic - August 26, 2018, 3:05 am

Nice old theme, thanks for sharing!

kaymakasm - October 1, 2018, 9:59 am

hello guys how can i add dashboard and informations text on tabpage?

ZeekHD - October 1, 2018, 11:45 am

Awesome theme, keep it up!

KorbinP - October 1, 2018, 10:21 pm

Awesome Theme looks very good, I may use for one of my programs

CreatedAutomated - October 11, 2018, 3:53 pm

Beautiful theme man. Looks awesome

manueligt - November 1, 2018, 7:45 pm

...

hello I would like to buy a set of controls to suit me

ArcanSquad - November 9, 2018, 4:55 pm

Looks awesome, nice Theme !

beressx2 - November 21, 2018, 2:37 pm

If I create a new class and copy the pastebin into it I get around 500 errors using Visual Studio 2017. I haven't been programming for atleast 7 years now and I used to try out some custom themes from someone called AeroHack back then, but as I am really out of it and want to make this work I would need help as I do not know what to do right now. I created an empty class and it says that certain types as Font, Graphics, Color, Rectangle are not defined. What do I need to do in order to fix that? Thanks in advance! Looks like an amazing theme.

Edit 1 minute after this post: I forgot to use the imports, but I am getting the "ComponentModel.DisplayName" and others are not defined errors which are about 8 in total now.

Edit 2: After importing just the System (imports System) it got fixed, but I believe that is just a quick solution rather than a good one.

Another question: How do I add a title to the TabControl like you did with 'Dashboard' and how do I add pictures infront of the tabpages text?

Anesthesia_Love - November 29, 2018, 9:11 pm

awesome theme. might put into a project of mine. i let you know and credit you if i do

xSSN - December 27, 2018, 1:45 am

I like the theme but the ProgressBar doesn't have an Increment?

SaketSaket - December 27, 2018, 2:43 am

(Dec 27, 2018 02:45 AM)xSSN Wrote: [\[CITE\]](#) I like the theme but the ProgressBar doesn't have an Increment?

you can use something like this...

PHP Code

```
<?php
```

```
progressbarcontrolname.value=progressbarcontrolname.value + yourincreamentvalue
```

Regards
Saket

Ajumma - March 7, 2019, 7:55 am

Hello,

Sorry to bump an old thread but the button's text doesn't seem to get updated.

For example when I do something like, `XylosButton1.Text = "Hello"` I have to do `XylosButton1.Refresh()` or `.Invalidate()`

This causes the control to flicker and doesn't look good. Is there something I got to do to make it work like a normal button?

St333z - March 7, 2019, 8:51 pm

Awesome theme very clean thank you for this

Kagome - March 8, 2019, 2:46 am

Thanks much for this!!

This theme looks very HQ indeed

fec-ri.muhayyel - March 10, 2019, 12:51 pm

can i see the themes pictures?
