Well, good luck with your group.

However, I don't think DDoSing is a skill, even a banana can ddos.

If your mission was to embarrass yourself with this dumb ass post, you've succeeded.

Step 1) Open CMD

Step 2) Download LOIC (and HOIC if you're really really badass)

Step 3) Type in: ping google.com -t -l 35500

Step 4) Make screenshots of it, send it to the FBI and wait for 6 years jail

Step 5) You hacked google & you're a famous hacker now.

CONGRATULATIONS. ?

I'll be happy to be a part of the HitCrew & help with DDOSing without pay, i'll have to show some better methods of ddosing than with LOIC though (or any other basic port flooding methods), LOIC is basically a shortcut to a court charge.

Contact me at: klaxonoxalk@gmail.com

I'll get back to you ASAP.
