This is totally on wrong section, otherwise that seems good. I think you can paid stickie on this section, but this thread belongs to Marketplace. ?

My bad, I checked out a bunch of other threads for examples and they all lead to this one, didn't realize I had to post in one of the marketplace sections.

Can a moderator move it over? I apologize for that! Or nuke it and I'll repost to the Marketplace. Apparently I can't delete it.

Edit: Thanks, staff! All sorted in the right section now.

Sales are live on this again, guys. Just updated the links, store, etc.

occupi - March 19, 2017, 11:13 am

I just added a brand new 50% off coupon code! Use coupon code HFSPRINGBREAK at checkout to

save 50% off the retail price of the book! That's a steal considering the high-quality content I'm offering here, guys!

Offering more limited vouch copies to Ub3r members who're interested in exchange for posting a review on this thread. I know it's been a long time but the method still works. PM Me.

Received a vouch for this baby, very very simple method, but very very effective. This book is super clean, very easy to read. OP provides you with all the sources you need, he explains and elaborates on anything you might not know, making sure you understand everything. Now to the method, you are easily able to gain slaves this way. Although it requires a minimal investment, you'd be getting so many slaves it's worth it. Good luck with this and it has my vouch!

Still looking for HQ reviews in exchange for a free vouch copy! Also don't forget the 50% off code listed above!

Hexalogy - March 22, 2017, 5:47 pm

This book is super clean its very very very easy to read and really explained deeply I would rate it 9/10 honestly its a non bullshit ebook in my opinion. The investment is worth it and I do see this working out and being 100% successful. Now to the method, you are easily able to gain slaves if you put fourth the effort!
