Question - was YOUR Paypal account limited? I don't have BTC at all, and I have no clue how to get it, but I was wondering if you'd take Paypal from a perfectly acceptable Paypal account? Just wondering. :o

go to localbitcoins, sign up, buy bitcoin with paypal (the most expensive option, you can go for example to coinbase sign up and buy them easier and cheaper with your card) and then send them. Personally i use coinbase because i had no clue and its suuuuuper easy mate.
