Why this E-book?

Most of you guys don't want to pay monthly to a web hosting. Right?

So in this [E-book] I'll explain you how to get a Domain + Webhosting for a year for Free.

Getting Started

[Remember: If you from a other country. The Message that will be send to your E-mail will be in your Language.]

1. Go to one.com
2. Click on get started button [Picture > [i.gyazo.com/d4fef4430c7c348456b5f4b2039caaf 6.png](#)
3. Get the domain that you want.
4. Scroll down to Customer information. And fill it in ( Don't Use your Info ) but Use your real Phone number to get the phone SMS verification. [gyazo.com/7b5d5e9a1d6551add75d2d65702064 2d](#)
5. After you are done, click Next
6. You will see now a method of payment. ( Click on Bank Transfer )  
[gyazo.com/dd95862c3a051d9bc740b35310300189](#)
7. Click on Buy. And you will get a Message to your E-Mail and click on Activate. 8. Wait for your 4digit Code and put it in the Box. Click on Send.
9. You will get again a Message to your E-mail. [Something like your domain has been activated.]  
So what now? Go to the Login Panel. Click on Password Forget. And you will get your Username + Password. So you don't need to wait the whole day.  
[gyazo.com/a8a011881f4b1ebea369791cc90d00c6](#)
10. Login Enjoy your 1year Domain + Webhosting

TIP:

Use a VPN with a Netherlands IP.

If they want, all they need is an IP. (Trust me)

I am not gonna do this because I am not interested in an invoice.

"1. Go to one.com"

No, this isn't the one.com method retard.

**Gallant** - October 16, 2015, 4:00 pm

Do i have to be in the US IP to do this ?
