Thread: [HF community is amazing...](#)

Jokes - October 13, 2015, 1:26 pm

Honestly, compared to other site's HF and the HF community is fucking amazing.

For example, LF every time you refresh the "new content" 90% of the stuff is "10000000000 USERNAME AND COMBO LIST!!111!!111" and other stuff like this. This is the exact same nulled. And don't even get me started on the [hide]faggot[/hide] garbage that honestly pisses me off. People even do it in the lounge on those forums they'll make threads and make you reply to see the low quality bullshit they have in their thread. And on nulled, they gave a anti-leecher thing which is honestly stupid as fuck, considering the fact that every post on there is in sections that will drop your leecher-level which then will result in you getting ban. The only way to get a positive leecher-level is post in the General area, which is inactive as fuck due to the fact the entire forum is leaking LQ garbage, 98% of the posts on there look like this: "ty" because everyone wants to unlock the hidden content and they don't have a minimum character thing.

Omni did an amazing job on this site... I can't come up with anything that I dislike about it.

I can only agree with you OP, you can actually have intelligent conversations here (sometimes).

Jokes - October 13, 2015, 1:42 pm

(Oct 13, 2015 01:40 PM)? Poppadomus ? Wrote: [\[CITE\]](#) I can only agree with you OP, you can actually have intelligent conversations here (sometimes). Yes exactly, on those other sites there is no such thing as a discussion. Either you provide the leaks or you get banned for leeching.

I mean don't get me wrong, you can find some pretty dope leaks on there but if you post to see the hidden content your leecher-level will drop, then you will get perm banned like I said above.

TreeZn - October 13, 2015, 1:42 pm

It's because the owners of other forums such as FK and LF are fucking retarded. Omni is a real nigga and he knows what he's doing.

The Fro - October 13, 2015, 1:43 pm

Yeah Omni did an amazing job. But in my opinion he fucked it up by:

1. Making groups paid <- Probably saved himself a fuckton of hassle/time though as he didn't need to micromanage.
2. Removing a bunch of sections/going overboard with discussion bans <- Probably to be proactive, but some of the stuff is inconveniencing with no upside for members. (E.g. no MC/NFLX etc. accounts)
3. Adding chat filters <- Who cares if you talk about foolish or say the n-word.
4. Wasting time on (imho) stupid cash cows <- I doubt he made his money back on adding tags. That kind of stuff just makes the forum looks cheap and probably took time he could of used elsewhere. Private SFs? Ugh.

Honestly, I'd do the same thing Omni would do, reduce headache, increase profits, but for members, this site probably becomes bland quickly.

I'd be really interested in seeing member metrics, seeing how long on average it takes for new members to stop posting over time.

SHOLLEX - October 13, 2015, 1:45 pm

Indeed, couldn't agree more with this one. Post to unlock future is disgusting all tho ur getting banned if u tried to unlock couple of these and sheet. Anyways noone HQ thread over there, just waste of time with bunch of kids..

I'm happy with the way groups are, to some they may look expensive but if omni just sold a group to everyone it would completely destroy groups/give them no value or point.

Also the censor system, I don't think it should censor words, just disallowed websites.

Omniscient is an adult, are the owners of lf and fk adults?

Omniscient knows how to manage this has a business unlike others.

As for FK, I really know nothing about it besides the fact that it's a huge marketplace.

Your HF name is what I think of this thread right now.

Paul Wilson - October 13, 2015, 1:53 pm

Agree, on the other sites there is nothing but infected garbage and LQ posting to increase postcount and get more installs on your infected "leaks". No civilized discussion whatsoever.

this community is terrible too. not as bad as LF but it's still pretty terrible.

the scammers are the only ones that seem to make it terrible. there are a lot more mature people on here than other sites.

I have to agree with this user, I feel like HF would be even better if there was a better scam report system. This would most likely mean staff would have to get involved which honestly wouldn't be that big of a deal if there was a special staff group just for deal dispute stuff, meaning the current staff could continue doing what they do now.

There is a deal dispute section as well as a [Deal Dispute Database](#).

your standards of what mature should look like must be pretty low.

...they get a neg rep?

I agree though, maybe a counter on their profile that lists open and closed scam reports against them...

Making a suggestion about the counter right now. HF does not get involved in dd's but the counter IMO would be a good idea. Do you mind if I put your name on the suggestion?

no, i think nothing should be done to scammers. staff doesn't get involved with deal disputes.

if somebody scams another user, the victim will open a deal dispute and give them negative reputation if they can. if you deal with somebody with a deal dispute under their belt and you get scammed, you're a fucking idiot and it's your fault.

Cool - *October 13, 2015, 3:08 pm*

Hackforums used to be full of exclusive hacks/exploits and very rare OGs, and now I feel is more difficult to find things like that, I kinda miss those days. But yeah I've tried to post in several other forums and either they're full of LQ bullshit or have a lot of Black Hat activity and end up disappearing.

I have to admit that I still love HF tho <3. 90% of my lifetime online income is thanks to this site, honestly buying UB3R was one of the best investments I've ever made.

Long live to HF, brothers.

Omniscient - *October 14, 2015, 2:09 pm*

Do not compare us to other sites. I really don't care what they do nor do I want other sites discussed here. Especially ones that promote fucking over this community.
