Thread: [iloominati selling public method! 20\\$ \(UID 1757970\)](#)

Fumes - October 13, 2015, 3:49 pm

[\(Click to View\)](#)Hello,

I recently bought the user iloominati's Ebook Wildfire v2 and quite frankly its a public load of horse cock. Join me on this journey of exposing this broke nigga boy for who he really is. He's literally scamming kids out of \$20.00. I have asked for a refund as this method is public and broken but he is giving me the usual "No, I can't afford to refund you get scammed fagget" bullshit.

Part One: A Web of Lies:

- Iloominati states in his thread (screen shot here) that the "Ebook consists of twenty three pages and 2015 words"; when in all actuality its artificially inflated by using size twenty font and pictures which take up 3/4ths of the page. When the font and pictures are reduced, the Ebook is a measly seven pages.

- As said above, a lot of this Ebook is horse cock. There's what I'd call three sections.

Spoiler (WARNING: Potential SPAM or INFECTED LINK)

- There is literally one method in this Ebook and its public as fuck. A solid two weeks before his Ebook hit the market (07-30-2015, 01:08 AM) someone posted the exact same method (as seen here, note the date posted). This leaves me to believe he simply copy and pasted the method.

- This method has been patched by TeamSpeak themselves. This was posted about on Reddit, Steamgroups, Hackforums, as well as many other sites (including Teamspeak's!).

Spoiler (WARNING: Potential SPAM or INFECTED LINK)

- When you post the link, when clicking it Teamspeak shows a warning and where the link goes to. This is easily detected as a scam hence not profitable.

Part Two: Utter Cuntfuckery:

- I asked for a refund as I am (rightfully) mad at this user. I don't want to post this, it took too much of my time to create. He refused to refund me and started insulting me.

- > I buy his Ebook and am hyped to try it out.
- > I see that its a public method and I am outraged.
- > I contact him privately and ask for a refund.
- > He insults me and still refuses the refund.

Deal was for me to give him a refund even though he didn't deserve it but since he's my first unhappy customer I gave him it. Deal was in return that he would junk it. He didn't since he maxed out but before i knew i negged him then saw his pm and told him sorry for the neg, he doesn't reply. instead he opens the thread and keeps it open. Even regardless of all the past customers i've brought in this thread from the past he says they are bought vouches LOL

He didn't listen to any of my claims i tried to honestly work it out with him but he's whiny as hell refer to here for the private messages:

He wants me to junk my scam report if I want this junked

I told him I don't care if this stays up as it is false and my scam report is valid and his uid remains in the scammer database.

Continues to call my ebook shit and complain about \$20 and also continues to LIE about my method in the OP. Claiming that there is only one method and also claiming that it is patched.

There are multiple methods. He also claims that there are only 7 pages.

He justifies that by showing the table of contents that have not been updated since v2.

V2 includes multiple methods that are indeed not saturated. Fumes is just a manipulative liar by deceiving member(s) to make my product look bad by giving them false rumors. I've went over skype with multiple members that took his word and shared screen so they can confirm it. He thinks that the pictures and the words are huge as fuck but if you change the text font to size 12 and the font to verdana its 19 pages LOL

Some of the pictures are way more descriptive then the words because they display how to do certain things.

On my ebook page he had violated my TOS multiple times but I still agreed to work with him and help.

REFER TO THIS FOR THE EBOOK VERDANA SIZE 12: <https://i.imgur.com/EFtP8HH.png>

He claims the scam report is invalid but it infact is not because the deal was for him to junk.

He's not asking me to junk my scam report and in return he will junk his. I refuse to do that due to past experiences with him that led up to this as I explained earlier.

Regardless of the negative reputation that triggered him to act in such a way despite the fact I gave him a refund which he didn't deserve even when people consulted me to hold off. I did it because no one was reading the posts but just the first thread post of the OP. Thus me against everyone and everyone trashing my thread even when i try to provide arguments he still complained 'REFUND ME' and everyone else is like REFUND HIM.

So I did and then everyone realized that he did indeed not deserve it.

refer to this

<https://i.imgur.com/1rQsLCx.png> for the pm's about junking.

People who supported me on page 5 were negged by fumes

if you think they were dickriding me think again as Fumes has negged all of them before they negged fumes.

Fumes was basically coercing members to not support me by negging. Which is childish.

Everytime he hit me with a disrespectful insult (go click the link above for pms or just simply read this threads OP)

I tried to resolve it. Everytime he said something rude I remained passive and tried to work with him. The moment I become passive aggressive he gets offended immediately and turns this around trying to support his claim of a refund.

He got a refund but he's still crying.

Like people said, op you have your own ebook and you basically fucked yourself.

Either give me the \$20 back and keep this thread up or junk it if you want to solve your scam report.

Everytime I asked him if he had tried the other methods he replied with 'JUST REFUND ME' in this thread, read the posts from the beginning. He ignored it because in the OP he claimed there was and I quote Quote:literally only one method

He bought something he couldn't afford it seems (maybe it might not be the case and he just regretted impulse buying the ebook) But it is a quality ebook and I provide support for my customers. I help them, I have regular conversations and solve their problems/answer their questions.

Talking to op is like talking to a wall, it's a one sided argument.

His thread/op just read it doesn't it seem a little bit like a fairytale to you guys?

Let's dissect it

Quote:he is giving me the usual "No, I can't afford to refund you get scammed fagget" bullshit. Read pm's if you think that is the case.

Quote:- Iloominati states in his thread (screen shot here) that the "Ebook consists of twenty three pages and 2015 words"; when in all actuality its artificially inflated by using size twenty font and pictures which take up 3/4ths of the page. When the font and pictures are reduced, the Ebook is a measly seven pages.

Honestly it's as if mmwayy is guiding him through this scam report but anyways..
Size 20 font he claims and he says the pictures take up 3/4ths of the page.
That is not true as I proved it wrong a little higher up in this post.
But what happened to 'Quality over quantity'
Oh wait nevermind he claims it is shit and it is saturated and there is only one method.

Quote:Section Three: How to setup a RAT. This is literally fifth teen pages long and is common sense. I don't think he needs to include this in the Ebook and if he must; it shouldn't be half of the Ebook.

'fifth teen' pages long and is common sense. This is a beginners ebook. And didn't you tell me there is only 7 pages

I can't be bothered looking about when you posted my table of contents you used that to backup your claim of only '7 pages' in the ebook as there were only 7 outdated lists in the table of contents

sections $\neq$ pages

You added a superficial analogy to sections and pages
there is no connection so why are you telling people in the thread that there is one page a section?
Did you think I would not wait to collect my thoughts and call you out?

[img]Public TeamSpeak method. This method is not only patched but public as fuck and not monetizing in the slightest.[/img]

For the one "public" method as you claim I have been steam stealing for little over two years now and have just started selling this method

You can ask the member you have on skype named 'OverSight' if you do not believe me.

I have proof it's not patched in the way i do it, I have proof from last week I stole shadow daggers.

<https://i.imgur.com/ay1tA3C.jpg>

Here is a trade history from november of 2014 regardless

<https://i.imgur.com/HRRdlK5.png>

And if you think i'm fake or i haven't been in the game. Rednoob and Jmd7231 used to help me trade. They both have the ebook and they've personally gave honest reviews on it as they've seen what it's capable of. Jmd7231 is using the ebook and has been successful.

I've helped so many customers and they've vouched and your the only person that has had a problem.

And then when customers come to post their thoughts you pass them off as fake vouches and it being a shit method.

You did violate my tos multiple times even by just leaking the table of contents

You claim that there are method"(s)"

but in the op you say "literally only one method" Make up your mind

This is not a method and you are a fraud for claiming this as a method in my ebook to deceive members unknown to the situation that are too lazy to go through the pages.

Quote:> I buy his Ebook and am hyped to try it out.

> I see that its a public method and I am outraged.

> I contact him privately and ask for a refund.

> He insults me and still refuses the refund.

Now be honest and read the pm's did I legitimately insult you initially and did I refuse to refund you?
@ VIEWERS OF THIS THREAD, direct yourself to the pms that he did not include in the op but i have in this post

Quote: Join me on this journey of exposing this broke nigga boy for who he really is. He's literally scamming kids out of \$20.00.

Quite professional. You bought RIGHTS to someones personal income method mate. YOU BOUGHT OWNERSHIP of an income method to have a source of income lol. Even in the thread title it said 'VIDEO PROOF' and then later on would you look at that, someone calls you out for false advertising and you get wrecked.

I mean has anyone genuinely bought your method and REPORT back about how successful they were? Or did you PM an admin to remove their post as they were regular members prone to buying it?

Just grow up and know that you are at fault here.

Oh and btw, how is this for 7 PAGES.

iloominati - October 13, 2015, 5:44 pm

Yes, so here is the timeline
if you don't want to read the one above

He pms asks for refund I respond respectfully and try to cooperate, he escalates it to a community alert.

People take his side, he lies and that's all he does.

Deal was if he junks the thread I give him a refund. I wanted it junked because no one was listening to my responses and I felt like I was getting attacked despite all of my responses. He kept responding
just refund me just refund me.

I refund. After that I neg him because he doesn't junk the thread. I go to the main page and see a new PM the pm said im maxed atm

I respond and say I sorry for negging didn't know you maxed. Then he doesn't reply. He then negs back and says 'you know what' opening thread.

Just because of a neg he kept the thread up. But everyones like "you didn't deserve the refund" and you closed the thread.

Then I make a scam report because you still haven't junked the thread and then we waste 4-5 days with this shit.

Then I shit on you as i'm tired of it and you junk almost instantly. (the quote above my post)

How did I scam you for \$20 I refunded you instantly that day

Your claims of a false ebook is invalid because i've had customers come in here and vouch for my ebook and personally defend me.

You're the only one that has had a problem.

When you instantly junked I closed my scam report because it was solved but as soon as I closed it you made this deal dispute like what is your problem nigga
anyways this is invalid and you technically owe me \$20 but you're too much of a poor boy to admit it

You neg people who support me (not anymore after getting called out last time)

Some people don't give a shit about your negs as above ^

No ones gonna reply supporting you because you are lying once again
Now you are claiming it was a junk for junk

There is no proof
Everyone here witnessed it.

Deal was you junk if I refund. I did my part you didn't do yours.
After I made a scam report and you looked like an idiot you wanted me to junk it but everything was going well for me because people started reading the posts and not just the op and everyone knows that you lied and I tried to work out everything.

'SELLING PUBLIC METHOD'

I provided proof of running the game back from 2 years ago.
Regardless, there are MULTIPLE unsaturated methods. Your claims have false evidence.

I used to run this shit, rednoob here used to help me trade the goods

we still so sometimes when we feel like it
This is a false scam report same as the community alert

This time you are claiming it was a junk for junk

I remember repeatedly saying if you want to solve the scam report junk it but anything's fine with me because I don't give a shit if your community alert stays up because it's all fake false and wrong

just in case he changed anything in the op

Do you realize I have screenies from the beginning and that is completely false? I beg hm and due to that neg he tells me he's keeping it open

Quit lying

I never agreed to trash my thread you can't find proof all you do is spit false accusations

Since he didn't junk and I refunded I neg him and then read pms to find out he tells me he's maxed, I'm maxed on negs I tell him I'll fix it as well

He doesn't reply but I know he reads it. Now he is triggered and he negs back and says he is keeping it open thus me opening a scam report because he didn't fulfill his side. All proof is located on page three in rednoob and my post you just have to read. I said multiple times I don't care if your little community report stays up anymore but if you wish to solve the scam report junk the thread.

When we talk about retard people posting bs. This isnt the whole process. Iloominati didn't open scam a scam report this quickly. He negged fumes to notice him to junk it, and said it will be re,oved when resolved. Then fumes neg him back, and reopen the fkn report instead of saying he cant junk it, what a retard. Then he got rekt on the thread, so he junk it and open this one.

How about you look it this way? If he would of junked his thread or EXPLAINED he couldnt junk it, instead of being online and ignoring, no drama would of happened. No need. You even posted it that in pms that say you negged him and he told you he couldn't junk / and he cares about rep so that obviously upset him. Once again if you actually cared about your reputation a seller you would of junked the deal dispute after you got him to junk his thread . You left it open to "gloat" that you won. That caused him to make this thread.

Ps- only reason I'm still posting is because you linked thread in my rep . Remove thread link and I will leave. This thread is only between you and fumes. No idea why you would link it on me lol.

No need. You even posted it that in pms that say you negged him and he told you he couldn't junk / and he cares about rep so that obviously upset him. Once again if you actually cared about your reputation a seller you would of junked the deal dispute after you got him to junk his thread . You left it open to "gloat" that you won. That caused him to make this thread.

Do you even know what youre talking about? Okay, you're not in the context at all, your just randomly making non sense link. First, he junked his thread because he just got blasted so hard. He made this thread because he wantd to get blastd again. And it isnt abt the fact of him as a "seller", its not only his rep on the line, its about to expose a scrub out. So now, you can stay quiet and gtfo,

since your just posting crap.

Did you just really wrote this? Your completely out of context and making a general statement which is false.?

Ahhhh, its kamek! Heyyy

Ps- only reason I'm still posting is because you linked thread in my rep . Remove thread link and I will leave. This thread is only between you and fumes. No idea why you would link it on me lol.
You do realize he didn't deserve the \$20 in the first place, he lied through his whole thread.

Everything was a lie

If he didn't deserve the 20\$ why did you refund. Please tell me why didn't you junk your thread after he junked his. There was no reason to keep it up besides to make more drama.

Hope you get your money back.You do realize I refunded him on friday like an hour after he posted the thread? You hope he gets his money back? He wrongfully got it on saturday

It is not public and the whole OP is a lie. If you do not believe me take your time to read the god damn evidence i had supplied.

Why do people go in random reports and just say damn op thats a shame hope u win wat a public method

Deal dispute system is fucked tbh are you trying to boost post count?

Why is this even in deal disputes is what I don't get. No one scammed op out of anything and all the proof in the OP is artificial.

I've already debunked all of it on my LEGITIMATE scam report on him and on page 3 here on this very thread.

No one even took money from him, no one scammed him he's just crying because i proved him wrong and as a liar

the title mentions \$20

lol thats cute

So let me get this straight fumes, who is scamming you for \$20 again? Because in reality it is the other way around completely and you practically scammed me and justified it by putting false claims to boost your ego

People just simply read the op and eat it up
thats what happened in the beginning and people like this guy im replying to is doing it right now.
Perfect example.

I explained why I refunded in the op of this thread
<https://hackforums.net/showthread.php?tid=5017134>

read the following posts after it

And why i didn't junk my thread after he junked his? This is business, he said initially that if I refund he will junk

i refund them neg him because he closes it instead

then after i check my pms and he said that hes maxed atm

i tell him i negged him before i checked it and i'll fix it when im not maxed as well

This triggered him. He negs me and says that he's going to keep it open.

Going back on his word.

Thus soon later I create a scam report on him.

Then he finally junks it after i shit on him and then i post on my scam report on him that this has been solved and placed an archive of the arguments.

Then I locked the thread.

Later he gets salty again and makes a scam report for \$20.00

I refunded him on saturday LOL

He claims the deal was to junk for junk when he can't provide proof.

All he does is spit bullshit and people who are prone to the situation at hand and only read the op just post "gl op what a scammer xDXDX jajaja"

I never agreed to junk for junk

Why would I do that if he didn't hold up his initial offer?

That was still pending lol.

claiming i said junk for junk

what a liar. Just like his last scam report. All lies.

PLEASE BEFORE YOU SPEAK

GO TO PAGE 3

<https://hackforums.net/showthread.php?tid=5021220&page=3>

I DONT UNDERSTAND HOW THIS IS A VALID SCAM REPORT.

OP JUST PUTS BULLSHIT CLAIMS AND WHEN I TRY TO COMBAT WITH VALID PROOF HES LIKE 'NO UR WRONG LOL'

He's ignorant.

Read page 3 before you post please

Cynder, everything you asked everything you tried to argue me with was proved in page 3.

Please I encourage you to read the post in rednoobs spoiler and then my post shortly after.

READ ALL OF IT

and then talk

Hi, why would I waste my time to "blast you". Also if you aren't his friend, why spend days defending him 24/7. If you were merely a bystander you would of posted your 2 cents and left. Only reason I haven't is because he linked this thread to me :)

Iloom you said it your self. He junked thread . If you didn't want this to continue you would of instantly junked your thread instead of lockin it. Only person losing in this situation is you :). Also remove the link in the neg you gave me and I will leave ;)
