(Oct 14, 2015 11:44 AM)Regulus Wrote: [\[CITE\]](#) Hello there members of Hackforums. I received a vouch copy from FRANKIE an here's my honest review on it!

The Method - ??????

So I've been reviewing a lots of eBooks etc on Hackforums in the past and first of all I'll admit, this is the most promising method I've seen so far.
The method is very very easy to do and doesn't require a lots of work at all to be honest.
In the beginning you'll have to invest a little bit of time to it, when I say a little bit I really mean a little bit.

Ease of Use - ??????

Once everything is setup and done this is as easy as 1, 2, 3 and i'm not kidding.
This method requires just a tiny bit of investment.
And once everything is setup I can guarantee you that you will make money with this no doubt.
And I also guarantee that anyone can do this to be honest, yes ANYONE.

Layout - ?????

Even though it's not the layout we're gonna look at I gotta say this eBook's layout is pretty simple and clean and very easy to read and understand.
You will have no problem reading it or understanding it at all.
And it also contains screenshots so you'll be able to understand it even better and.

Overall - ?????

I'm gonna go ahead and rate this eBook 5/5 stars immediately because this is something I never thought I'd see.
The method requires a small amount of investment in the beginning and you're good to go.
The method is so simple and easy to understand and you'll be able to start making money fast with this method.
Me myself will definitely try this method out as well and I promise I'll post some screenshots here once I've made some money out of it.
And trust me I will make money out of this, so will you!

This eBook is definitively Regulus Approved!

Well the risk is so minimized that if anything were to happen to you "legal wise" it would take a tremendous effort to have anything done to you / track you. It's fine ryan I was expecting legitimate concerns & questions. ?

Can this become saturated? If so, are you selling a limited amount of copies? Are there any

requirements? How much can we expect to make daily? Is it difficult work? Can we invest more to make more?

(Oct 14, 2015 12:15 PM)Inspire. Wrote: [\[CITE\]](#) Can this become saturated? If so, are you selling a limited amount of copies? Are there any requirements?

The market for this is fairly used by many to be honest with you but there is still a shit ton of room for exploitation. No limited amount of copies. It's only going to fuck up if 200 people buy it & I doubt that. The requirements are partially in the thread & in the e-book itself.

ROI - October 14, 2015, 1:16 pm

Just bought this. Waiting for Frankie to come online

Also if a large IG following makes this method more profitable.

Thanks.

FRANKIE - October 17, 2015, 8:46 am

The risk is not a thing to worry about = Minimal. Lots of followers don't matter because you will be targeting a specific group.

Does this work world wide? I see you receiving money through mail, was wondering if that's the only way of receiving money or could you in fact get paid via paypal etc...

How much daily work would this require (be realistic)

If you had a larger instagram account could that lead to larger potential sales?

Could you use that instaknight bot ([showthread.php?tid=4946054](#)) to aid in the money-making of putting this into ebook into place?

All the questions I have for now, thanks in advance :)

1: Worldwide yes, excluding africa? I guess

2: under 30 mins but spread out throughout the day

3: having a bigger Instagram does not really affect it, you are going to be targeting a specific group

of people so you could lose some followers in the process if you tried to turn your already Fanbase towards something else.

4: I believe you could use a bottle, however, for me personally I would much rather grow the account naturally and legitimately. That way you can actually measure your growth and get to know your customers as well as your target audience a lot better

Any other questions you may have, feel free to post here again or send me a personal message. Thanks again!

This ebook does in no way involve ppi/ppd/or any kind of affiliate network. If you took the time to read through my posts, you'd know I HATE anything affiliate and have told countless people that it is a waste of time.

You think affiliate networks are a waste of time? You obviously have no idea how to make money with them then. The amount of possibilities with these networks are endless. I don't expect you to believe me, but I know somebody that makes upwards of \$25-30k a month with an affiliate network, social media, and SEO. How he does it may be against moral standards for some, but his life is quite good for a 19 year old.

Anyways, the point is... affiliate marketing can give you an amazing life style if you know what you're doing.

So you go on a rampage about how every ebook has them and then defend them? Which is it ya little bastard ?

I make my money with affiliate marketing, but I'm not trying to discourage people from learning more about it. You can find a lot of information by simply researching about it like I did. Knowing someone who has more experience surely helps as well. I simply dislike people who sell ebooks on this forum because most of them are full of shit with pages of fake ass vouches. If all of those vouches were legit, there would be a lot more boasting activity.

Marketing is a dirty little whore that will take you by your gullible balls and pretend like she actually cares, but will end up stabbing your ass in the back sooner or later.

I guess? Idk wtf I'm saying.

Had to learn it the hard way.

You're still making money from it and you're selling your own method as well ?

I'm debating on this one but honestly the whole idea of it sparks my attention never thought of making money though instagram.

Someone scammed you bud? halting sales for a bit?

I'm honestly considering this ebook just because of the quality of some of these vouches and you seem to know what you're doing. The investment part is kinda what tells me that this isn't just some shit.

Quick question , would you be able to use your own personal instagram for this or am I using newly generated accounts to target a niche we could say?

No I am not halting sales but I am trying to get this thread out for others to see.

Also no, it is better to start from scratch with this method.

Makes sense , thanks for answering me honestly ; don't get that from most people trying to make a quick buck from an ebook.

Gonna pay for another sticky? I'm sure all of this is bumping the thread back up

It takes 2-3 weeks to setup and people message me. They don't just randomly post on the thread with their progress, that would give the method away.

I think I asked this before but I've forgotten.

Would like to know as well.

I'm currently growing my accounts (gaining hundreds daily)

Do I need specific niche?

FRANKIE - November 2, 2015, 4:51 pm

It is a specific niche, and I believe I did answer but it's quite alright.

dLay - November 3, 2015, 12:59 am

Bought the E-book, knew the method already but thats not his mistake, it's very very usefull to do and makes you absolute bank if you take your time.

Does this teach you how to grow your Instagram?
I'm interested

FRANKIE - November 4, 2015, 8:18 pm

It covers, how but does not go in depth as it is rather easy but time consuming is all.

OMJenke - November 4, 2015, 8:26 pm

This thread is still going? Kinda want to buy just for the sake of it. How much money have you made in total?

FRANKIE - November 4, 2015, 8:27 pm

I have made over 3k from the method alone myself, the only difference is I own 20+ Instagram accoutns and use this on 4 out of those 20+ accounts.

Juicy - November 4, 2015, 8:36 pm

Do you have to have a big Insta?

I would cop this before someone purchases the rights and jacks the price up.

OMJenke - November 7, 2015, 11:07 am

Why are you the only one that's posting proof? Why aren't the other people that bought this posting back about any sort of results? It's been more than 2 weeks now, and you said that's how long the setup takes. I'm simply asking this for other people that are probably wondering the same thing.

Because I have been working on this method for almost a year and have everything setup. It is up to my customers to post proof / or not. I hate to say it but I feel many of them are too lazy to work on the method. I know of maybe 2 that are going for it. Regulus is one of them, you can ask him how he is doing. Last I talked to him he had 4/5 hundred followers on a cat niche that he was building. Only one of my other customers has followed up with me or even bothered to ask a question and that was which items he should get first after building the account.

Have not heard from him since.

Most people just buy the method and then get lazy. It happens every day.

Nobody wants to put in the effort and that's not my fault.
