Thread: [Upgrading 3 Normal Members.](#)

64-Bit - October 15, 2015, 6:47 am

Hello HF, I'm going to be upgrading 3 normal members completely free.

So there are probably some normal members who cannot afford l33t however such members can also be excellent contributors to the community.

If you feel you are a contributing member and would like the opportunity to be upgraded please do not hesitate and create a post explaining why you like using HF.

RULES:

You must not have any unresolved deal disputes.

Scammers - Don't bother applying.

GOOD LUCK - Ends 1st of November 2015.

1tap - October 15, 2015, 6:48 am

I dont really know if i Have contributed to anything. But I do Try to Help people from time to time.

sorry, missed the part why i like HF (was writing from mobile..)

So basicly why do i like HF? Because its fucking great, we got everything from Counter-Strike to Botnets, There is always something you can do on HF, and i mean it.

So thats my little "Why i like HF" I could write a fucking essay about it though lmao.

Thanks for this contest btw!

DataDumper - October 15, 2015, 9:05 am

I joined HF - 2011 but i had a little break. I trying to help everyone on the forum, and i am sure i will bring many self made stuff in future :). If you think i deserve this, then just pick me :).

I like to use HF cuz there is so much about a hacking, there are so many high quality posts, you can start from 0 to become a pro...

On HF i can find many people that can help solve my problem, and i still getting more and more informations !,

also i like to help people, so i always use HF to share my tools, programs :)

Devil Dog - October 15, 2015, 9:07 am

Upgrade yourself to ub3r first:)

Entering in your contest :-)

The reason i like HF is because:

1. There are alot of stuff for example tutorials
2. Alive marketplace, i remember once i was need money and sold my LOL account fast thanks to the active marketplace
3. Nice people who are willing to help, example: whitehat section

And much more... :-)

AGC God - October 15, 2015, 11:59 am

Would love to join your contest bro. Good luck to everyone!!

I love HF because it is such a unique forum and has a really great community with top class posts and really high quality and interesting threads.

Thank you for hosting this contest!

mokkacyan - October 15, 2015, 12:07 pm

Would like to enter.

I love hf because it gave me so much :P

I stopped playing games, opened gfx designer talent, got scammed by nex. Hf is full of talented ppl, so you will always get better. I got inspired by lounge posts, so now i have gf. And contests like this.. Amazing..

ObeyHacking - October 15, 2015, 12:12 pm

This is awesome of you! Thanks so much and Goodrich to whoever wins.

I may not be the most HQ member but I definitely do my part and do the best and most I can around here (: I am on all the time wether it be on my phone or pc. (Currently my phone) and I have

done a good amount to contribute to the gfx side of this forum and such. I really enjoy hf as I can be me and have no worries. Everyone in the hf community is awesome in theorem way. Its amazing. I do my best to present myself in a good manner and help with everything I can and post everywhere I can (: goodly to everyone and myself with this contest. I'd absolutely love to ade to l33t but cant afford it right now like the thread states. Thanks a ton op.

My friend showede this forum yesterday and I immediately registered, I'm doing my best for helping people here on HF (Especially in the Coding section).

I'm planning a lot of open-source relases made by me in the next day, and I hope they will help the community ?

Thanks for this opportunity OP, good luck everyone!

ACESLIMZ - October 15, 2015, 3:14 pm

Joined HF as a ratter learning the basics turned into a somewhat tutor and selling spreading ebooks helped atleast 10 people with proof and got them to test on my team viewer, always online to see whats new and to be the first to comment on anything that requires help or just in general questions, so if i do get accepted thank you OP appriciate the l33t

Saitama - October 15, 2015, 9:59 pm

I am entering this giveaway, first of all thankyou for doing it. My reason is because even though I don't post alot, I try to keep myself as HQ as possible, I may not have contributed to the community by creating a thread but in the past I have helped several people with fixing their PC for any kind of malwares/viruses, on the other side, I try my best to be active in the lounge, but the thoughts of making LQ post just strucks my mind and I think not to post, this is because my current status explains it alot.

It would be really awesome if I get upgraded for free, because at this state I can't do it myself.

Edit: I guess I got it.

FG057 - October 16, 2015, 3:29 am

Hey I would like to enter contest. ?

I love the lounge section of the forums and also the member contests, and marketing sections. I'm mostly just silent lurker here, but I'll try to give back with a tutorial in some time. Basically I would like to be a l33t member so I can be more recognizable and so people here will be taking me more serious as a member.

Hope I have a chance to win this. ?

Thanks for the giveaway ?

xayler3 - October 16, 2015, 2:17 pm

A bit of an optimistic approach from me here due to being new with 3 posts, but I would like to say that if you're willing to give me the chance to shine with l33tness and prove myself then I shall be forever grateful :)

Witz - October 16, 2015, 2:59 pm

I like using HF because this the only site where you can learn. Sharing each others skills in different sections. When having questions/problems theres always someone that will know.

I've helper members with a little bit of my experience that i know so far. To get a solution for them.

King Sharky - October 16, 2015, 3:05 pm

I love HF. I just joined but I feel like the community has so much to offer and that I have so much to offer to it too. I'd love to get upgraded.

(Not saying everyone but i see it a bit on here)

Does nobody read the rule of "explain why you like using hf.." ect.. everyones just trying to leech some free upgrades for lq posts saying "im in. I want l33t" am I the only one who thinks its not fair since I put some effort into my post? C'mon guys..

Bloomer - October 16, 2015, 9:02 pm

TRkratosX - October 16, 2015, 9:40 pm

I'd like to be upgraded :)

I Am Kira - October 16, 2015, 9:43 pm

I'd love to enter! I feel like getting I33t would help me contribute a bit more.

As a normal member you don't really get noticed or acknowledged much.

But I've helped HF by releasing a private method I used and worked for free instead of making a crappy ebook out of it. But I believe it would this upgrade would make me very active. In a month or so I could get I33t but I rather earn it then use money I'm saving for a present for family Christmas.

Ganja. - October 16, 2015, 9:45 pm

I don't deserve this quite yet but I truly hope they go to deserving people!

Goodluck peeps... awesome giveaway OP

Bill_Cipher - October 17, 2015, 2:50 am

Hey, first off thanks for creating this give away and I hope you like my application (I think I could say that), but yes, I hope you like it.

I have come to Hack Forums as I have always been going to new forums and I feel as if Hack Forums is my new home. Everyone here is so pleasant and honest I just can not get enough of it, I must say from the other forums there were very few give aways and they were never as good or as big as the ones here. I have recently turned 15 years of age (11th October) and well yeah, that's my sob story/guilt trip for you. I will be posting leaks as well as free E-books in the Marketplace as soon as I am allowed, but until then, well I will hopefully be able to make some HQ posts in the Lounge etc...

Once again, thanks.

Max.

GroveStreetOG - October 17, 2015, 9:31 am

Hey Poppa I would like to enter this contest and possibly be upgraded, Goodluck to everyone else

Chers - October 17, 2015, 12:12 pm

I would like to be upgraded because i can help out this forum, and i am very active i may just joined the october, but i am really into helping this forum with my knowledge.

I know alot about ewhoring, blackhat and i can make alot money if i want to.

I would be helping anyone in need and i would be there for anyone too.

Thank you so much for lunching this contest ?

Sta.ze - October 17, 2015, 12:23 pm

First off, thank you for the contest and the chance of possibly becoming upgraded. Second, I've made quality contributions and plan on continuing these. I plan on selling some stuff in the marketplace. Being upgraded can save me money to buy servers used to make some cash. I plan on making HQ posts in the Botnets section since it's so cancerous. A lot of people come on HF for the hacking sections, but I look around forum wide and post anything I feel that can help another user. Thanks for this again OP ?

Shira - October 17, 2015, 12:24 pm

I contribute to this forum with my long dick it makes every else's 2 incher look a little bit bigger

unopie - October 17, 2015, 12:29 pm

I will enter this contest for the upgrade of leet status.

Reasons why I deserve it:

1. I currently am in training for malware-removal, and I am about halfway through my training, a user would trust an upgraded member more than a regular one.
2. I have common sense.

h?ck?r - October 17, 2015, 12:30 pm

Hey there, if this contest is still open I would love to enter! I am somewhat newer to HF, I joined last year but didn't start posting until the beginning of this year. I may not have a ton of posts or threads, but I think it's about quality not quantity. I like HF because there is a ton of information you can learn and share with others, there are other members to help you with stuff, and because it's a community in which you can hold and share your opinion. I feel like I have contributed by helping other members with the knowledge of website security that I have, by posting quality posts to help others out and to also expand my knowledge, and by trying to be professional in everything! HF has taught me more in a year than almost anything has, obviously besides school haha :D Thanks for the opportunity to be upgraded, I'm excited to see the results, and good luck to everyone!

I like using HF because it's where the majority of the community I contribute to the most resides. I like contributing to my community because I feel like if I make a big enough difference in being an HQ user, hopefully others will follow suit and grow up (my community is fairly immature). I also like using HF because it's not as scummy as other, less likeable sites. I like their policy on content-creators first, and not letting their own users get taken advantage of. I want to sponsor that, and that's why I stick with HF.

I use HF especially for marketing and money making purposes. I look out for ideas which I then can mix with my own creativity and experience to come up with new business possibilities. While doing so I try to help others, especially in the monetizing and investment section.

Would be great to win this since as a "normal" user you often don't get taken as serious as a Premium one, thanks in advance.

Vector.A+ - October 19, 2015, 10:44 am

I love HF because it gave me a lot of learning material and some members are awesome, I have my coding skills thanks to them

Knowledgeable - October 20, 2015, 12:15 am

I feel I can continue to offer bigger and better giveaways and also be able to achieve a higher level of trust from other members for the things I know I can offer. I seek to spread knowledge in any way possible and have experience already, that on HF being VIP has a lot more respect with it and VIP users get more general attention. Also, I have to always clear my inbox currently. I know that upgraded members get more space in their inbox and while I have 200+ posts, I answer many more pms trying to help individuals who seek my assistance. I don't have the financial stability to do myself. Another reason is because I know I could help a lot more members once I get upgraded as I'd be seen as more respected and more trusted. I would like to do a lot more giveaways for all users to enjoy. My hope is that once I get l33t I can then apply for ub3r membership as I've seen members with less rep and posts than myself currently gain ub3r so I feel I would be accepted. I want to be viewed as the highest quality member around and I strongly feel I can truly prove that without hesitation. I have a lot to offer and I know that being upgraded I could definitely get more respect to learn more, teach more and offer more. I would also very much appreciate being able to sell items in the marketplace once I get upgraded.

B4ROT - October 22, 2015, 12:20 am

Hey man is this still going? You may have seen me around the Vices section every now and then! I like using HF because it is a lot of like minded people together in one area discussing pretty cool topics for the most part.

If you want to upgrade me I wouldn't be complaining man! I keep most of my posting high quality, and I definitely give my fair share of advice in vices, when I can! See you around!

Well, I'd like to enter because I've been contributing quite a bit recently (donating the odd dollar to people in the Rewards and Small Favors section, stuff like that) and I'd enjoy being upgraded to start using the Premium Sellers Marketplace. I've been a bit wary to buy anything here so far because I've heard of upgraded members scamming non-upgraded users because they have no recourse. Thanks for hosting this giveaway, OP, I hope to do something similar when I have the extra money.

Hey dude, first of all good job that's quite kind of you, hope I'll win this one ><'.

Well, I've been messing with blackhat shit for over then a decade, had to stop in 07 for three years due to my army duty but came back alive in 2010.

Now, as a Java coder I'm planning to sell some of my stuff around here later on since most of the are still in progress.

I used to sell RDPS recently but I paused it for a while (since selling as normal looks scammy and not much of sells anyway), I do believe in giving my customers the best since I've been fucked and scammed multiply time by sellers around here so I promised myself if I may ever be selling anything over HF I will do my best to my customers enjoy my products, and I did, ensuring anyone of

customers are more then pleased with what they bought,just beacuse I know how it's feels being fucked while bying on HF,I do hope making HF market a better place.

That's it,hopes that's enough,good luck to others. ;)

P.S:

You got my word here,in case I shall win I promise to upgrade someone else once I will be selling stuff here,you can call it upgrade-roller.

Luuk - October 27, 2015, 3:26 pm

hey man,

I joined HF in 2012,(not many rep for 2012 thats because most of my time i'm looking for guides) my mom thinks that HF its all about hacking but's it's more than that, most people here are nice and very helpfull. what I like is the good guide's that people make , I've read lots of them it helps me out so much things. you can found so much things here everything as, funny things , things for school , about games , some help for my CPA and some nice sales.

I want to be upgraded because I just joined HF and I am making something useful to me in just 1 week. That said I must say that this community is amazing. I also have some threads which I cannot edit after 24 hours time limit which I would like to remove ASAP. Specially my sales thread.

Doodlegod - October 27, 2015, 7:14 pm

I'd love to get a shot at entering this giveaway! Thank you. Here's my entry. By the way, good luck to everyone that deserves it!

Alright, well, I love it here and HackForums. I haven't had very many recent posts because I lost my password for some odd reason, and my email wasn't working so I had to contact Staff. Obviously it takes them a while to get back because they're super busy maintaining the website. But, when I was more active a few months ago, I tried helping out everyone I can. Though, I do not post most of my

help, I usually PM the user because either I couldn't post in that section for prestige/reputation issues OR I just didn't want to get shit from immature UB3Rs and L33Ts that pick on regular members.

Anyway, I feel as if I deserve a shot at getting an upgrade because I love it here and HackForums, and being a l33t would mean more contributions! Without l33t, I get picked on a lot by upgraded members, and quite frankly am almost scared to ask questions so I don't catch hate. I'll be 100% honest, I can't purchase the upgrade myself because I just literally have no money LOL! I have maybe a dime to my name in online servers such as PayPal and Bitcoin. I AM NOT SAYING I'M POOR. I'm very blessed in my everyday life and have a roof to live under with food to eat, I won't make up some bullshit story to increase my chances.

Thanks for the giveaway, I appreciate it greatly.

Dox4Life - October 28, 2015, 8:28 pm

I post stuff mainly in the Vices section but I have created a fairly HQ post recently but I haven't really had the drive to really start putting the effort in. if I got L33T I would strive to be a very HQ poster and take my time with my posts. I have only joined recently but I have put out a HQ post with good feedback

stratex - October 28, 2015, 10:43 pm

I'd absolutely love to ade to l33t but cant afford it right now like the thread states. Thanks a ton op.

Untillnext time. Seeya!

I'd like to apologize for my spelling ect... I post a lot from my phone and dont always see all my errors. Woops; anyhow I thought I'd add tp my post (:

I have been doing my part as an HF member more and more every day, posting, starting threads, meeting more people ect.. I'm always looking out to help others and receive help also. I have contributed by making many thread designs and small programs like my [LUMMOX PUMPER - FILE PUMPER](#) and I will always enjoy doing more work for these users at hf. I have done lots of paid work and some free to give back to the community. Now; I've never been the best at writing long things so I'm really stretching my brain here and it feels nice to give it my best. Thanks again OP and best of luck to all the competition out there ?

(Oct 20, 2015 12:15 AM)Knowledgeable Wrote: [CITE](#) I feel I can continue to offer bigger and better giveaways and also be able to achieve a higher level of trust from other members for the things I know I can offer. I seek to spread knowledge in any way possible and have experience already, that on HF being VIP has a lot more respect with it and VIP users get more general attention. Also, I have to always clear my inbox currently. I know that upgraded members get more space in their inbox and while I have 200+ posts, I answer many more pms trying to help individuals who seek my assistance. I don't have the financial stability to do myself. Another reason is because I know I could help a lot more members once I get upgraded as I'd be seen as more respected and more trusted. I would like to do a lot more giveaways for all users to enjoy. My hope is that once I get l33t I can then apply for ub3r membership as I've seen members with less rep and posts than myself currently gain ub3r so I feel I would be accepted. I want to be viewed as the highest quality member around and I strongly feel I can truly prove that without hesitation. I have a lot to offer and I know that being upgraded I could definitely get more respect to learn more, teach more and offer more. I would also very much appreciate being able to sell items in the marketplace once I get upgraded.

And I have many more of these threads to come actually
Thanks for your contributions and Goodluck with being upgraded ?

crazy1s - October 29, 2015, 2:58 pm

Due to personal finances i cant afford to spend the extra money on being an upgraded member. However i do try to help with things that i have experience in where i can. I also try and make my threads something that all of HF can participate in and "weigh-in" on,as well as trying to better community as a whole.

Anyways thanks for the chance Herb Man!

aRuHZoNa - October 29, 2015, 3:01 pm

I'll go ahead and try for this, thank you OP for the opportunity :)

I feel like I deserve this upgrade because I've been on this website for quite a long time and have always been helpful and willing to help out any member, in any way that I can. I love this site and would be more than happy to spend the money to upgrade myself, but I started college this year and really don't have all that much money. With an upgrade I will continue to support the community and

help people out wherever and whenever I can. Thank you!

ObeyHacking - October 30, 2015, 12:35 pm

Cant wait to see the winners! Goodluck everyone :) so hyped :D

Sheeple - October 30, 2015, 12:51 pm

I'd like to enter

I feel like I help others a lot on hf and I enjoy reading and contributing to the community.

Goober2008 - October 31, 2015, 12:44 pm

I would like to enter! Thank you for a giveaway!

Dox4Life - October 31, 2015, 4:50 pm

I have posted previously asking for this saying a produce high quality posts I am going to drop an imgur with screenshots of my feedback on a HQ post I made about Vaping. I haven't had the drive to make HQ posts lately and I'm gonna be honest and instead of making up bullshit just say I want to have l33t to have a more formal look on my page and if I could afford l33t I would buy it but I don't have a credit / debit card at the moment but I would love the opportunity to have l33t.

Didn't I see a thread from you stating you were homeless a while back?

Vanetti - October 31, 2015, 4:52 pm

I would love to have it, wont be able to upgrade myself any time soon.

Updated/edited my entry!!

Hey there, if this contest is still open I would love to enter! I am somewhat newer to HF, I joined last year but didn't start posting until the beginning of this year. I may not have a ton of posts or threads, but I think it's about quality not quantity. I like HF because there is a ton of information you can learn and share with others, there are other members to help you with stuff, and because it's a community in which you can hold and share your opinion. I feel like I have contributed by helping other members with the knowledge of website security that I have, by posting quality posts to help others out and to also expand my knowledge, and by trying to be professional in everything! HF has taught me more in a year than almost anything has, obviously besides school haha :D Thanks for the opportunity to be upgraded, I'm excited to see the results, and good luck to everyone! My latest high quality thread is [here](#)

ObeyHacking - November 1, 2015, 12:33 am

Ayyyyy its Nov 1st. Goodluck to all who entered and I wish you the best! I put a good amount of effort into this thread and wish the best for myself and all whom entered. Hope to see the results soon!

-thanks op :Blackhat:

?MIN?M - November 1, 2015, 3:14 am

I'd like to be upgraded. I don't contribute technologically, but more of a "emotional support" type of guy lol

Marketista - November 1, 2015, 3:34 am

Thanks for the contest, I would like to participate!

Hi, I am a new member here, still exploring this forum. So far I like it, but being un-upgraded cuts my wings for doing something which can have a good impact here. I hope I will be able to help the community in the future.

Good luck to all.

AnOrdinaryGuy - November 1, 2015, 9:09 am

Interested for this contest my friend.
let me know

Hayabusa - November 1, 2015, 9:13 am

Posting to enter, nice contest.

GoblinHF - November 1, 2015, 9:15 am

Hello, sorry for being a late, but i'd also like to enter this contest.

I'm a old HF member, but i had some jobs to do and now im active once again after 4 years of being inactive. I have a huge experience in GFX , internet marketing, and sale stuffs. Being a l33t will help me a lot, since i will be able to share more stuffs and useful contests, actually i already started with it few days ago once again. ?

Back in the years i was really addicted on this forum and i spent most of my online time learning new stuffs, so im really happy with that to be honest.

I contest against this contest lol

Wizard - November 1, 2015, 7:35 pm

Wow i know there's probably no way I'll win because of everyone else noting your generosity, but i guess i should post anyways. I can't afford it so it's an extremely generous thing you're doing for people like me who can't buy it. Thanks & Congratulations to whoever wins

BedTime - November 1, 2015, 7:56 pm

Hey, I'm BedTime and I'm glad you're hosting this competition. Thanks, for letting me join the thread!

ObeyHacking - November 2, 2015, 12:15 am

When are the winners chosen? Its after Nov 1st.

well i been on here since 2012 i think? with my old account i cant access anymore, i didnt upgrade that account cause didnt have the money, still dont, had to make a new account, well i roam this site alot, and i help when ever i can not too much cause im a beginner but if i can i WILL! i mainly ask help and ive brought many people to this site, i follow up on all the news and twitter! and well id just love this site the most! (even tho its down half the time) and i would love to be able to have a better profile, thank you so much for this we need more people like you! you are the best! <3

fleckzter - November 3, 2015, 8:38 pm

I want a rank so i can feel cool and feel like i own the forums like every other person with a rank
