Thread: [iOS 9 Jailbreak is here ! Jailbreak Now !](#)

ShNuG - October 15, 2015, 8:04 am

Hey guys,

Good news who all was wondering when the jailbreak was going to come for their iOS 9 Devices. As ih8sn0w demonstrated he successfully jailbreaked his iOS 9 device :

<https://twitter.com/iH8sn0w>

Now, The mobile security researcher "Pangu" has released its major iOS 9 Jailbreak..

Well yeah, It's here and you can see at pangu official site here : <http://en.pangu.io/>

Go #cydia :D

Thanks,
Niklaus

I have just done this now. I had to restore iPhone clean again but it worked second time around. Just about to install all major packages, MovieBox, AppCake, Flex etc.

So happy its out my phone has been so boring without jailbreak

It is recommenced to wait. You should wait a week or two that way they fix most of the bugs that are there.

Most tweaks and apps on Cydia are not updated for IOS 9 so they won't work until they get updated.

Flex2 works fine but downloaded iFile and it just opens and closes. Probably going to have to wait a

few whilst everything is updated

Juicy - October 15, 2015, 8:13 am

I haven't had jailbreak in my iPhone since iOS 6 but I plan on jailbreaking my iPhone 6 I just got in about an hour

Jokes - October 15, 2015, 8:13 am

There was a thread made on this yesterday.

IMO you guys should wait a bit longer.

Free apps, free in app purchases, themes, modifications to anything. MovieBox to watch any film and tv series. Well that's what I use it for

Thanks a bunch for this, to exited to jailbreak again <3

EDIT: For you guys who use Snapchat, be sure to install Phantom. Great tweak, that's why I mainly Jailbreak.

Well yeah, Still trying to install Flex2 :3

FRANKIE - October 15, 2015, 10:15 am

I am not even going to upgrade to the latest firmware, FUCK dat

Fish - October 15, 2015, 10:18 am

Should be in the ios or news section. The jailbreak isint stable so il I'm just gonna wait

Juicy - October 15, 2015, 10:18 am

Hey guys what apps should I get from cydia?

You will want MovieBox version 3.3.6 it allows you to watch all movies and tv shows (Repo for that is repo.insanelyi.com)

AppCake version 4.95 allows you to download free apps (Repo cydia.iphonecake.com)

Ziggy. - October 15, 2015, 3:56 pm

I'm still on iOS 8.1.2 jailbreak lol i should probably update

Zeckons - October 15, 2015, 3:57 pm

sht brb jail breaking iphone 5....

annman07 - January 8, 2016, 8:46 am

Can anybody know anything for the 9.2 JB? :(

?ing - January 8, 2016, 8:51 am

I thought this was out for a while, I stupidly updated to iOS 9.1 so now I'm just waiting for a jailbreak for that.

Yes indeed.

IHadALifeBeforeHer - December 16, 2016, 10:53 am

There's a jailbreak for 9.3.3 and 9.3.5 but not for 9.3.4 would you guys recommended going down or up
