Do you have to pay to use them like you do with Netflix, Hulu, Minecraft, etc..?

Not sure about shuttershock, but pretty sure fileice is free but just hard to get in.

To clarify - are you hacking these accounts or are you giving away already cracked accounts?

I guess my overall point is, can I request a specific account be hacked by you or are you using a method to find account information?

01010 - October 16, 2015, 3:58 am

I can do any.
Specific accounts have a lower chance.
I'll get back to everyone when I wake up d
:)

Great! Thank you for clarifying. Please PM me with what information you need for an account when you wake up. I'd love to take advantage of this.

Account for anything? Should put blacklisted account such as HF accounts and etc. But this is still against the rules. PM me if you have anything offer.
