Thread: [Astro A40TR Headset for \\$59.99](#)

FrostedBirdz - October 17, 2015, 12:23 am

Seems like the A40TR Gaming headsets sell for around \$150 alone, but Gamestop is selling them at \$59.99. If someone has already posted this please let me know.

Gamestop: \$59.99

Astrogaming: \$150

Hopefully someone finds this helpful. :)

/e Cant post links.. Derp..

/e Maybe someone can verify my links are fine as well since my low postcount, obviously official websites for both companies.

It seems like they've noticed, sorry everyone I tried helping out the community however I could. Someone maybe post if it ends up working again, doubt it but I'll try to do the same.

/e edited due to typo lol
