Thread: [Disable Update Firefox dialog](#)

mrnapolean1 - October 17, 2015, 10:13 am

I have the following setting set:

Tools --> Options --> Advanced button --> Update tab --> Never check for updates (not recommended: security risk)

But this shit still pops up:

[IMG]<http://i192.photobucket.com/albums/z74/mrnapolean/udffd.png>[/IMG]

When im surfing the internet and this pops up it slows the browser to a crawl.

Weird, I don't experience that with the same setting. Maybe try deleting and re-installing the browser?
