I'm a way a head of you we have a lot more people using it than we anticipated so we will be upgrading our server so we don't keep over-flowing with bot commands to avoid crashes like this further down the line!

I added this bot a few days ago, pretty amazing. So far I haven't found any flaws.

Private666 - October 21, 2015, 12:14 pm

Update #2: One of our dedicated boxes is going offline in two minutes. Were swapping the motherboard, and power supply In the Server. Expected downtime is 20 minutes.

So some vps customers may experience minimal downtime of 15-20 minutes

Bot is all backup enjoy still monitoring to make sure its all smooth.

Private666 - October 24, 2015, 2:01 pm

After fixing a motherboard issue the server got DDosed all back up and running! enjoy
