I got spare BTC, and Im drunk.

- Loose wallet. ?

First standard member who can create a valid argument why they deserve to get upgrades, gets just that.

Regular members, lets see the salt, all your efforts are not without notice, show me, and be upgraded.

Limit of a Single User. - Sorry, wish I had more BTC to waste. ?

Robotdude39 - October 17, 2015, 10:39 pm

Well, I want to be upgraded because I am a HQ user (outside of my near-obsessive spamming of upgrade giveaways), I help out in my favourite forums often, and I will give back to the community once upgraded. I also absolutely need to get away from this horrible name I chose for myself. Robotdude39? Seriously? Oh my god. What was I thinking.

Thank you in advance if you help me out!

Not actually sure if I can even post links yet, but here goes.

<https://hackforums.net/showthread.php?tid=5024454&pid=48229481#pid48229481> (I posted a few times in this thread.)

I'm coming back from a year or two of inactivity, and I don't have too much under my belt (yet), but I hope to give back to this community in a meaningful way soon. I'm most active in the subforums that interest me the most, but I'm trying to expand my scope currently.

Hm, well I'm not sure exactly why I deserve l33t but here a few reasons;

First of all, I'm pretty active on the forum. Joined 3 days ago and I've got like 16 hours online lol.

I have knowledge in lots of fields so I'd be posting more without that posting limit (40 & 30 second waiting).

Inbox is getting full over 10 times a day and it gets really annoying clearing stuff, especially when I need some so it gets hard to pick out all the things I need and don't need.

I think having a rank would help because I would be able to post in those 25 prestige zone areas, such as Innuendo & Relgion. I've got some stuff to say but it sucks when I go to post and get that dreaded "You must have 25 prestige to post here, please upgrade..." blabla.

I haven't contributed too much yet but I'm trying to post more tutorials and stuff sometime this week. Here are a few things I've given away & helped with;

1: some game accounts

<https://hackforums.net/showthread.php?tid=5025722>

<https://hackforums.net/showthread.php?tid=5023797>

2: some crappy minecraft username checker

<https://hackforums.net/showthread.php?tid=5023753>

3: twitter accounts

I'm going to help some people start with CPA soon, and thanks for the giveaway :)

Approved.

I got exhausted yesterday and fell asleep, you will be upgraded tonight when I get home from work.

Congrats, but please try avoid those warnings in the future buddy. Best of luck in your future endeavours. ?
