"Others toil their entire lives to make a name for themselves, some are just born LEGENDS."

This is a completely FREE middleman & escrow service offered by Raymond Reddington, the owner of Legends. After transacting thousands volume of trade in the Marketplace, I still notice that the current state of the Marketplace is in a deplorable condition; ridden with scams and increasing number of deal disputes every minute. As such, I have decided to do my part and volunteer my time and effort for the better of Hack Forum's esteemed Marketplace. I will be offering this middleman/escrow service for a long period of time. With me, you can feel safe and secure while conducting a deal. That's my guarantee, to you.

While I'm offering this service, I follow certain terms for the benefit of myself and my client's. With that, I expect the client who is willing to use me as his/her middleman to follow my terms while conducting the deal. Rest assured, this is a FREE service and will always be free without any hidden fees. By doing this, I hope that the traders can enjoy a safe trading experience and reduce the risk of deal disputes being created per minute, even if it were to be by a small percentage.

This is a very great service you are offering! Glad that there is someone out there people can rely on to be able to Middleman for them - for free at that. I know that's a big reason why many people don't Middleman also, extra \$.

Thanks for providing this service.
