Thread: [Higher max file size for sig pic](#)

Kify - October 20, 2015, 1:09 pm

So, i'm trying to change my sig to this;

Spoiler ([Click to View](#))

[img]http://img-comment-fun.9cache.com/media/361232bd142491915672895143_700wa_0.gif[/img]

But it won't let me as it's 830kb

Current max file size is 500kb which imo is pretty low, so what i'm asking is increasing the max file size, maybe to something around 1mb

ada? - October 20, 2015, 1:10 pm

GL. That will never happen.

Don't talk shit, it's possible.

@OP

Unfortunately I don't have time at the moment.

FRANKIE - October 20, 2015, 1:11 pm

This would be amazing, I could upload my animated signature!

ada? - October 20, 2015, 1:11 pm

Oh damn, I'm such a retard.

I thought he asked to resize it to under 500kb. (Which is possible @OP).

I know, but it will lose so much quality that i won't even be interested in changing my sig.

dopepizza - October 20, 2015, 1:19 pm

You know how slow the site will load if everyone has a avatar with a size of 1mb.

This isn't going to happen.

I dont think everyone is going to upload an image of 1mb, and i dont think it will affect the site loading speed (well, maybe not much)

Wrote: [\[CITE\]](#) I dont think everyone is going to upload an image of 1mb, and i dont think it will affect the site loading speed (well, maybe not much)Considering the servers just got changed, faster loading and such I feel like omni may be more open to this idea now rather than before.

Domyos - October 20, 2015, 1:26 pm

There's nothing wrong with trying this, if the site would go slow, he could just reverse it to 500kb, amirite?

Kify - October 20, 2015, 1:33 pm

Exactly, he'll just see if it makes a huge difference on loading speed or not.

If so he could always decrease it

FRANKIE - October 20, 2015, 1:35 pm

I would literally donate to be able to do this.

? Soufian ? - October 20, 2015, 1:35 pm

Same here, I'd definitely donate to make this possible.

lol

You don't know what you are talking about.

Right now there are around 800 users browsing Hackforums.

1000 800 10 = 8,000,000

1000 for the file size people will be using.

800 users that are browsing the forum.

10 avatars per page.

Then i haven't even talked about signatures and userbars.

It isn't going to happen.

Omniscient - October 20, 2015, 1:43 pm

500k sig image size limit is plenty for anyone to create a reasonable signature image.
