Thread: [Net Seal Remover/Patcher & WinRAR Activator](#)

rey3165 - October 20, 2015, 11:13 pm

? Hey Guys i just finished my version 1.1 of my neat seal remover/patcher

Many Issues fixed ! :) Finally

But also has a winRAR Activator which activates WinRAR :) So Pretty big benefits

here is the link

hope you guys enjoy!

no more having to get or purchase any type of net seal product requiring a username/password

You must run the program as admin in order for the WinRAR to create the .Key file in the winRAR Directory ?

new account, few posts, low reputation download with caution scan first. this should go without saying.

Scan results:

IDIOT. Do not download. It's a virus

rey3165 - October 21, 2015, 4:25 pm

LMFAO "Your stupid did you not see the guy he scanned it for me? do you want more proof? or are you to stupid to scan it with your own antivirus ? LMFAO :)

Is not allowed released patch for netseal man

Internet Security - *October 23, 2015, 12:09 am*

As you have only been on HackForums.net for a total of; 1 Hour, 24 Minutes, 31 Seconds

I will give you the benefit of not knowing that Net Seal was developed by member(s) on Hack forums

the developer is: AeonHack and here is his thread

<https://hackforums.net/showthread.php?tid=2206993>

Weco - *October 23, 2015, 8:32 am*

This Thread looks sketchy asf.

RandomUser123 - *October 23, 2015, 8:59 am*

As Internet Security said, Net Seal is made by Aeonhack (an hackforums' member). And the Terms of Use you accepted on signup do not allow to make patchers for stuff published from the forum's members. So even if it's not a virus and is truly working, it's not allowed and is not nice for the lot of work Aeonhack did. That's one of the most respected users here for me.

rey3165 - *October 23, 2015, 12:25 pm*

i did not know that i apologize for that i'm sorry i'm new here but yes it does work i shall remove it
