Thread: [\[RED LIONS\] Upgrade & Awards! | L33T | UB3R | 3P1C | GIFT AWARD | EMERALD AWARD!](#)

**DeadOne1** - October 21, 2015, 6:46 am

In this contest you will win the following:

What are the Red Lions? And why are we doing this contest?

The Red Lions are a group of high quality members who will work together to make HackForums a better place. We will veil the marketplace, report spam, illegal products, sales trashers and the desires that signify the discomposure of Hackforums. We will help each and every member with the aspects of Hackforums, by knowing all rules, policies, and everything within the [Help Docs](#). We are doing this contest because we have seen drastic improvements throughout the community, most members abide by the rules, help people when they need it. We have seen alot of HQ members who are benefitting the community in various ways, and this contest is to reward them. This upgrade/award contest shows appreciation and respect from the Red Lions.

## Gift Award

How would you help HF if you got upgraded/if you got the award?

I am already a UB3R & 3PIC. And my working methodology will change in a positive mode. Yes, these type of upgrades/awards give an inner confidence to do more hard work. I hope it inculcates the same feeling in me and I help the community by giving more hours and helping hands to my HF buddies here.

Why would you want to be upgraded/why do you want the award?

Have recently won the 3PIC upgrade in a competition. (Between - I won L33T and UB3R in competitions only!) And would love to add a Gift Award to my tally. Frankly, it is a status symbol, a feeling of confidence and last but not the least, you are treated with trust and a respect is shown as a HQ member of the community! And, further I would like to mention - Who does not like to receive GIFTS! ?

[code]Which prize do you want? Emerald Award/Gift :D

How would you help HF if you got upgraded/if you got the award? I would continue to do what I normally do day to day. I recently have tried to become a more high quality member on HackForums and have started to report every post I see that's against the rules.

Anything from bypassing character limit, to reporting black hat activity etc. This is personally something that would make me feel achieved and proud of what I do on HF.

Whys that? Because knowing that I was picked out of a ton of other people to get a award due to what I contribute to HackForums would be outstanding and would just continue to motivate me.

A ton of free gfx request done as well.

The reason I did so many is because I just started to try to make more HQ contributions instead of a lot of decent ones.

Why would you want to be upgraded/why do you want the award?

I sort of answered that answer above in another question :)

**\_Crack** - October 25, 2015, 6:43 am

I stand here today humbled by the task before us, grateful for the trust you have bestowed, mindful of the sacrifices borne by our ancestors. I thank President Bush for his service to our nation, as well as the generosity and cooperation he has shown throughout this transition.

Forty-four Americans have now taken the presidential oath. The words have been spoken during rising tides of prosperity and the still waters of peace. Yet, every so often the oath is taken amidst gathering clouds and raging storms. At these moments, America has carried on not simply because of the skill or vision of those in high office, but because We the People have remained faithful to the ideals of our forbearers, and true to our founding documents.

So it has been. So it must be with this generation of Americans.

That we are in the midst of crisis is now well understood. Our nation is at war, against a far-reaching network of violence and hatred. Our economy is badly weakened, a consequence of greed and irresponsibility on the part of some, but also our collective failure to make hard choices and prepare the nation for a new age. Homes have been lost; jobs shed; businesses shuttered. Our health care is too costly; our schools fail too many; and each day brings further evidence that the ways we use energy strengthen our adversaries and threaten our planet.

I want to get the award because I've been wanting that award for a while, but I couldn't get it because I don't have enough "extra" money. I've contributed a lot to the community of HackForums, and I absolutely do not expect to get anything in return, but it'd be great to get something like that for free once in a while.

[code]Which prize do you want? - 1337

How would you help HF if you got upgraded/if you got the award? - Honestly, I am a genuine guy who likes to help others in whatever it is they need. I look to help beginner companies who are looking for that extra boost. So I basically buy their website/hosting, or whatever it is needed to accomplish their business, SEO/Marketing is one of them as well. I offer great advice to the people who are needing help mentally. And guide them back into the right direction. I will also offer free graphics services down the road, and will help people better understand graphics & business management. From the experiences that I've went through and learned. I am very high-quality, when it comes to serious conversations, but I will goof around every now and again.

Links to contributions made: I am new, but will prove I am worth 1337 - [hackforums.net/showthread.php?tid=5052102](http://hackforums.net/showthread.php?tid=5052102)(name 3-5 contributions)

Why would you want to be upgraded/why do you want the award? I feel like this upgrade could help

me with my businesses, and other peoples businesses. By having 1337, it gives you higher priority when selling things and getting that upper trust you need when doing deals, or needing something that is only offered to 1337s or Ub3rs. I pose no threat to any of the members on this forum - and would like to help in succeeding with others, and expand the knowledge.
