Looks interesting. Is it 64 bit compatible?

Texno - June 25, 2010, 8:09 pm

That's another "Mr.Cool" program, Great share mate.

00codebook08 - June 25, 2010, 8:34 pm

Thanks for the share, works perfectly.

Yes mate, It Is. Downloaded and running well on both of my Windows 7 x64 lappies.
I'm just checking out It's many functionalities and options at the time of this post.

Thanks a lot guys. Hope you will find this useful. Enjoy

rekt_ - July 6, 2010, 6:05 am

Looks cool, thanks man. I'll download it when I get to my Win7 computer..

smoyoho - August 5, 2011, 12:28 pm

tnx for the share imma try it out now

The Archenemy - August 5, 2011, 12:55 pm

Whoever ed this nice! I downloaded and I'm now using this program. Nice share.

one1one - August 5, 2011, 4:45 pm

Great share looks very useful

LoveCrime - August 9, 2011, 5:14 pm

This somehow ruins my games, And my other programs, It keeps flashing and going off x_x tried system restor and uninstall this but keeps happening and it never happened before i installed this. Half of the time wen i click the programs to come up from taskbar they dont appear first time.

Rolling Papers - September 14, 2012, 6:46 am

Thanks for this grate share i will try this right now.

SeMp - September 14, 2012, 7:53 am

Thanks for the sharing i'll give it a try
