BooGod - October 23, 2015, 11:13 pm

What will the sponsor will bring to us:Forum theme developer

Designer for graphics [Userbars/Web/Theme/Awards]

Advertisement

Sponsor I'm looking for the project:

[+] Knowledge in the area of gaming.

[+] Reputable.

[+] Web Development Skills [HTML5 or Boostrap].

[+] Design Skills.

[+] Active Everyday.

[+] Agreement Sign-up.

[+] 18 Years old +.

[+] Discrete with information.

[+] Must have running one or more website and/or product online at this moment.

PLEASE ATTENTION TO THE FOLLOWING:

Niche: Mobile Game, easily target on FB, IG, YT...

Partners: That does run a business and that does understand how to make money.

How we will be making money? With my forum, Donations, purchases, subscriptions, one-time-payments.

What we will do? We will organize, create events, tournaments, tips, prizes, and more.

The site will contain: Home Page, Forum, Store (We will sell the site's name containing the game name and image, and others physical items).

What kinda of project/niche is this? Well, in this project I am hopening that we will be one kind/type of sponsor to the teams & single players in this game.

What we will provide to the users? We will provide many types of tips, just after you knowing what game it is you will understand how large it is.

How many users do you think acomplish/get? This game have millions of fans, around the globe.

It's completly white-hat, we will be using my PayPal account to receive the donations & payments.

And you will be paid, daily or weekly or monthly, it depends in the amount of income per day. We can discuss % or salary and payment schedule, I must say that it can be different for each one of you, depending on what you can bring in. The money will be always going back to the site for prizes, events and any costs for maintenance of the server.

Market Research

15 Million+ players/users are waiting to play this game, 1% (or 150,000) may join in our forum/website at the start.

By the maths, reaching at least 1% of the market (15 Million) we will get at least 150,000 users/players of the game registered in the forum, 25% (or 37,500) of these may subscribe or donate to be in the list to automatically enter in the contests.

If we get at least $5 \times 37.500 = \$187,500$, even if we get just 5% of 37,500 users donations or subscriptions which would be to be exactly: 1,875 users, we could get, \$9.375 just at the start of the site, I can't be exact yet with the weeks or months, because it will all depends of the quality of the website and forum.

With this money we will be offering Smartphones as Samsung and iPhone in the contests, so we can make more people interested in donating and subscribe the forums, I have been thinking if we be two partners (I will consider a % or monthly payment or 45% of the money for us, and the rest %20 or 10% of the money back to the site for more contests prizes and improvement of the website and investing in ADS.

By doing contests of Refferal System to make the user invite others users, they will receive a prize (3 TOP users with more reffers)

My focus is to reach between 5% (or 750,000) to 10% (or 1,500.000) of the market, so we can appear in online games news sites.

If we reach 25% (or 3,750.000) of the market we can get sponsored by gaming companies and mobile companies.

Why I think my idea will be successfull? Because my ideas are unique, I am passionated for this game and it's content, I know this genre of game as the aspect of it, I know how and when to do these things, and I know how the graphics, and how many graphics we will need. We will waste more money in the server space (bandwith & ram), and Graphic Arts.

Attention: I will at anytime change the thread as I think it's better to keep you up to date about this project informations, so if you are interested in the project you must keep reading it at least one time per week. I am looking for serious people, that have been in the business before or actually is a plus of course, you do not need to work directly in the project if you have any skill to Web Development or Graphic Design or MyBB forum experience to help me creating the forums and sub-forums.

This is a hard work to be done, this will take time to build everything up, and we have got two months from now to get everything working smooth.

Any questions regarding this, please PM me or post here and I will reply or PM you back.

Best regards, BooGod ?

MightyKnight - October 24, 2015, 1:20 am

How much money do you think we will need for this?

BooGod - October 24, 2015, 1:44 am

(Oct 24, 2015 01:20 AM)MightyKnight Wrote: [\[CITE\]](#) How much money do you think we will need for this?

Depends on who develop this for us? For the page and store we do not need nothing extraordinary in the coding side...It's more to catch eyes, our focus is in the community side (forum), if my partner is a web developer & designer, easily can cost just about \$70, if not...about \$150/250. The income just starts in January, but we can start getting donations and subscriptions/payments before it after everything set up.

YinYang - October 24, 2015, 3:02 am

Seems very interesting,

I do not meet all the requirements, but would love to see how this goes.

Good luck!

Fine - October 24, 2015, 3:05 am

I don't meet the requirements,
good luck with finding a partner !

420 Blaze It - October 24, 2015, 3:06 am

Looks highly profitable. It's a niche, so I'm not investing in it.

Yes, its one kind of niche. More of organization for players that play this game in particularly.
Thanks, ?

I have replied you back sir, thanks for the interest. Looking foward for your reply.

SyyK - October 24, 2015, 10:13 am

I think I might have all requirements.

I've also got a CoC website running with about 20.000 Visitors (Unique), mostly Mobile traffic.

However, I didn't get the project idea.

About funds to invest...If the project is (in my eyes) a good one, I can invest way more than just 200\$ but that depends.

Could you send me some more information about this via PM?

Thanks!

I will try to answer your questions, for security reasons of this niche is not yet used in a good way...I hope you understand me to not say the name and genre of the game. By you having connection to that much mobile unique visitors is a lot of help and decrease the need of buying AD spots.

BooGod - October 27, 2015, 8:18 am

Bumping the thread, still looking for someone. The past members have not met the requirements and are not interested in fully to be a part of the project. Any SE on me to try to steal the niche will be blocked in HF or skype.

Thanks, ?

How much money are you looking for in a partner>?

BooGod - October 31, 2015, 7:33 am

(Oct 31, 2015 06:55 AM)Rolly Wrote: [\[CITE\]](#) How much money are you looking for in a partner>?

I am not looking for a partner to bring money, I am looking for a partner to bring up service (Web Development & Graphic Designer - Graphic is the most important) we spend less money and use the money in ADs. For the moment I am discussing this with a member already, that I think he is serious about going forward...If we do not get an final agreement I will get in touch with you. I must let you guys know one more time. We will be a organization:

- creating events,
- prizes,
- tournaments,
- help, tips, tutorials,
- and share of informations

Between the Organization Team, and members/players in the community.

If we reach 1% of 15 million fans, we will get 150, 000 members. After that I want to raise to reach at least 10%. So my plans can let us get sponsorship from registered mobile companies and others. My idea is protected by the contents and art work we will have. There's none equal and I have been doing research about this game discussions and theres none another project to match ours.

?

BooGod - November 2, 2015, 8:01 am

Bumping the thread, none member are qualified to join this project yet.

Please PM ME ASAP Once site is up I will gladly use this site :)

King_Jack - November 2, 2015, 9:30 pm

If you could send me additional information via PM I'd appreciate it. Just want to get some more info.

I've worked for couple different companies locally and I've gained a lot of experience (One landscaping, one pet grooming, and a successful local videogame store).

I have a lot to offer mostly on the business, marketing, and economic end of things.

I can personally tell you that with the info you've given your numbers are definitely very advantageous, but I obviously don't know all the details at this time.

Despite this, this seems like something that really excites me.

I don't meet the requirements of having an online business, but I'd be happy to help if you want me. Online communities are something I enjoy creating.

BooGod - November 7, 2015, 7:22 am

I will PM you to talk about it, thank you.

I am still looking for a Developer & Designer to join me in this project, the two members who have been talking with are now two days inactive. Someone interested in being part of the proccess? We will need the pages in HTML5 or bootstrap pages, web design and graphic artist for draw improvements, signature, ads, logo, userbars for mybb forum, and others contents.
