Thread: [Public: 24/7 Small Minecraft Server \[CAD\]](#)

Achromatic - October 22, 2015, 3:45 pm

Greetings,

I'm proud to setup/host a small public Minecraft survival server, where you have the ability to protect your creations from others.

Server IP: 104.167.111.248

As mentioned, this is a small laid back, friendly atmosphere server.

Powered by: Hostamia Inc. a registered Canadian Corporation #9245219.

UPDATE ::

- Server is now available in offline mode, you don't need to purchase Minecraft anymore :)
- Login Security Auth plugin installed

Thanks,
