Thread: [XMPP button not working](#)

Vintel - October 23, 2015, 7:07 am

I dont know if this is the correct section for this but I thought it was the best place for it.

The XMPP button in thread replies has no function.

Nothing happends when I click it. Does it work for you?

Java Script - October 23, 2015, 7:11 am

No. Just takes me to the top of the page.

(Oct 23, 2015 07:11 AM)Java Script Wrote: [\[CITE\]](#) No. Just takes me to the top of the page.Same for me. Probably have something to do with the server change.

Roger Waters - October 23, 2015, 7:21 am

The button was never finished after the XMPP server was launched. I believe there is a userscript that has it working.

Usually the button doesn't work if your port is closed.

Hahaha thats as much logic as:
Usually you cant throw up because you didnt write Hello in an apple.

Omniscient - October 23, 2015, 11:46 am

Yeah, I need to finish that feature still.
